INTERESTING LETTER

From the Philippine Islands. The Island of Negros and its People Described By Lieut. Price.

TABOSO ISLAND, P. I.

[CONTINUED FROM LAST ISSUE.]

ED. NUGGET.—

The padre, or priest, as I understand it, was a Catholic priest with rank of captain in the Spanish Army, which enabled him to give orders to the Spanish soldiers. The chief object of the priest was to get money from any source whatever and by any means he chose to use. The Pilipino was required to pay for being born, pay for marriage ceremony, pay for living, pay for dying and then his relatives were required to pay rent on his grave or else the bones were taken up and piled in the corner of the cemetery in order to make room for one whose rent would be paid. Great piles of bones and skulls can be seen to day in the cemeteries. If the padre asked pay of a man and he refused, the man was immediately arrested and sent to Bacolod, the capital of the island, meanwhile the priest took whatever the man possessed. The people were made to give enormous sums annually to the church. In a town inhabited by very poor people can be found a fine church and a still finer building for the padre to occupy, both buildings being constructed without any cost to the priest. The priest never paid for anything, no remuneration whatever was paid for the servant work about the house. Orders were given to owners to bring their cattle, sheep and horses to the priest, they dared not fail, for they knew that the prison doors stood open, and when once closed seldom if ever opened. It would have been appropriate to write above the door of every prison, "Let those leave Hope behind who enter here" or "Ad infernos."

I have a few of the elaborate robes worn by some of the padres who cast them away as they fled. They must have cost enormous sums. The convent was filled with handsome and costly furniture, while the houses of the congregation were almost bare. The spacious quarters of the priest were filled with the prettiest women of the land. There was no restriction as to number, the padre was lord. If the priest allowed his lustful desire to cause a fancy for a woman she was at once brought into the convent, whether she desired to come or not. If the woman had a husband and he rebelled, the soldiers were ordered by this man with rank of Captain, to dispose of the husband. The man was either killed on the quiet or else impriscned falsely, and in many cases carried to the beech and shot. You can now see that the custom of bigamy, what little remains here, was introduced by the Spanish priests. Nicholas, our chief of scouts, who is by the way a fatalist, says that the custom came from the padres; that the people are great imitators, and when they saw their chief to whom, in their ignorance, they looked for spiritual salvation, taking unto himself more than one woman, they naturally followed his custom. It seems that all the Spanish officers and priests had formed a kind of copartnership, and when one did anything he was of course sustained, and in consequence the innocent were made to suffer and to die. The padres were educated and endeavored to keep the people blinded and in ignorance in order to steal from them. Only two remain now on the island. The only good one that ever came to Negros is now living in Talisay, a short distance from Bacolod. He is said to be really a good old man, and the people are very fond of him. When the Spanish soldiers left the island the padre had to go also, or some of those from whom he had taken a daughter or a wife no doubt would have disposed of him, as they would have been disposed of had they objected or rebelled.

The people are all Catholics, they know no other religion. They still celebrate their feast days and gather into the churches on Sunday morning and have singing and music and a service conducted by one of their leaders. The people, for miles around, gather into the coast towns on Sunday for the religious service, and bring their game cocks for the fights, which take place in the afternoon. A great deal of betting is done on the cock fights, tuba is sold to an excess and the people do most of their buying and selling.

To have the title of a pueblo a town must possess a church and a convent, the other towns are called barrios, and are a part of some pueblo. The pueblos each have a municipal government consisting of a presidente, delegado de justicia, jefe militar, with teniente de policia, and delegado de hacienda. A barrio has a teniate who refers all matters to the presidente of the pueblo to which his barrio belongs. The general government is carried on at Bacolod and all criminals and cases of importance are sent there for final disposal. The mode of punishment for minor offenses has heretofore been whipping, since there was no fund from which to feed prisoners while they worked, but since the troops have come the whipping is disposed of and offenders made to work.

I do not think that it would be altogether out of place for me to mention that since I began this letter this morning, a chief of the insurrectos sent a band of his men into Foboso to kill us and return to him with our rifles. They did not kill any of us, neither did they get any rifles from the soldiers but we got six of them, four killed and two wounded. Many more were wounded but they escaped into the grass and were out of sight in a moment.

The chief products of the island are sugar, tobacco, rice and maize. the sugar is all shipped to Iloilo to the English and Spanish companies who forward it either to Manila or Hong Kong. The greater part of the tobacco goes to Manila and is there manufactured into cigars a few of which return to the island. There is not enough rice for home consumption, and many cargoes are brought over from Panay. There is any quantity of timber here. There is not a saw mill on the island. All planks are either sawed or hewn by hand, which makes them very expensive. The class of wood is the very best, a great many kinds being so heavy that they readily sink in water. The wood is susceptible of a very high polish.

Transportation is chiefly by water, hence the towns are located along the coast. The kind of boat mostly used is the "lorcha," which is a two master with a capacity of about twelve or fifteen tons, and having no keel or center board, is beached at high tide, unloaded and reloaded at low tide and ready to go out on the next high tide. A steam tug is sometimes used for towing one or two lorchas. The "parao" is a smaller boat hewn from the trunk of a tree with its sides built up and pitched with tar. It has outriggers generally of bamboo. The paraos vary in size from six feet to seventy feet in length, and from one to ten in width.

All the better class of people are able to read and write Bisayan, and quite a number can speak and write Spanish. The greater part of the middle class read and write Bisayon only. The handwriting of the Filipinos is all very much alike. As a rule those who write write well.

I have written, as you see, just as the different subjects came into mind, without attempting arrangement, and now I desire to say a word about the future of the Filipino from a Negros point of view, and then I am through: The natives are naturally honest, with a few exceptions, and far more susceptible of civilization than the Negro. He is intelligent and would be comparatively easy to educate. As I have said before, he is a great imitator and would soon copy the customs of Americans. The Filipino already looks upon the Americans as the ideal nation, and he is right in that. The native is liking somewhat in gratitude. The truth is, he never had any thing to be grateful for until it was "Dewey in Manila." The troops are doing a good work for the island; the peaceful are protected, the undecided ones are persuaded, and soon become good citizens and those who care to fight, rob and steal, are hunted down and the ranks of the revolutionists, ladrones, tulisanes and Babaylanes are rapidly being deserted, and the people returning to their homes to work, and make an honest living. I am sure that after a very short while all will be well in Negros. Schools have already been started in which English will be exclusively taught and when American industry reaches here, and the people are paid for their work, the much loved siesta hour will be forgotten and soon Negros will be the richest of islands.

F. L. S. PRICE,
Lt. Co. E 6th U S. Inft.

Senator Cullom of Illinois, has introduced a bill in congress to even pension deserters of the army which is causing a kick from many of the leading republicans. Army deserters should not be pensioned in any manner nor from any source because they don't deserve it.

Bargains, Bargains.

I keep on hand all the latest styles of MILLINERY GODS and can suit you in either style or price.

They are Here.

A new lot of HATS and other pretty goods has just been received, and if you come first you will get pick and choice. All are cordially invited to come and examine my goods and get prices before buying. Respectfully,

MRS. STRICKLAND,
Dahlonega, - Georgia.

THE NUGGET.

DAHLONEGAGA, JAN. 5, 1900.

Entered at the Dahlonega, Ga. P. O as Second Class Matter.

T. S. Waters, formerly of Dahlonega, was elected chief of police of Gainesville last Monday night.

A stranger was found frozen to death one day last week in an old out house at Stillmore, Ga.

On the 31st ult., Andrew Johnson met his death at Columet, Mich., by falling 600 feet in a shaft.

The expenses of the legislature was $69,921, exclusive of some committees which will make an additional $4,000. This is the highest for years.

The insurgents had everything arranged to use some boombs last Sunday at Manila during the funeral procession of Gen. Lawton, which was prevented by a sudden change in the route. Four boombs and5000 rounds of ammunition were found in an old house by the Americans.

A large number of old pensioners have been in during the past few days making out their claims. Quite a number tottered with old age and will not be among us many more times. They are gradually going one by one and in a few more years there will be none left to tell the tale of the suffering and misery they have endured.

When the grasshopper ceases to hop, and the old cow quits her bawling; when the fishes no longer flop, and the babies stop their squalling; when the dunner no longer duns, and the hoot owl quits its hooting; when the vine no longer twines, and the song bird quits its singing; when the heavens begin to drop, and old maid's stop advising; then its time to shut up shop and quit your advertising. But not till then.—Ex.

The Marietta Journal truthfully says: In Marietta as elsewhere humanity shows its inconsistency. At the unkindness, bitterness of speech, hates and revenges, men heap upon one such dies they gather around his coffin, pile flowers upon it, attend the funeral with solemn visages as a token of respect, and express sympathetic sentiments, and extol his virtues. But, alas, the sightless eyes see not, the dumb ears hear not, the motionless heart feels not, and that which would have been gladness and sunshine, inspiration and hope to a breathing, living soul, was denied to be bestowed upon inmate clay. Stop, think, life is short and eternity is long. Can you afford to wrong your fellow man in word or act?

Last Monday night the old council turned over the business of the city to the newly elected mayor and aldermen, with a clear treasurer but no outstanding indebtedness hanging over the city except the school claim and that can only be paid off annually as it falls due. The members of the new body were installed and the proper committees appointed. The new body is composed of W. P. Price, mayor. Aldermen: H. D. Ingersoll, F. L. Reese, E. E. Crisson, B. P. Gaillard, G. McGuire and W. H. McAfee. All good men of business qualifications. Col. Price is acting as mayor for the third term in succession, and Messrs. Ingersoll and McGuire served as councilmenlast year. All the members elect have served as councilmen heretofore. After Capt. Ingersoll accepted the position of mayor protem the following committees were appointed: On Finance: Ingersoll, Gillard and W. J. Worley, who also acts as secretary of the body. Street: Reese, Crisson and McAfee. Sanitary: Dr. C. H. Jones and McGuire. J. B. Anderson was re-elected marshal without opposition, and H. L. Coffee assistanct and night watch. The formers salary is $30 per month and perquisites and the latter $25 per month and the same allowance of cost, which office is to be filled until last of March if not longer. G. McGuire, the treasurer, receive 2 per cent for collecting and paying out.

NEW MINING COMPANY

With Gen. Warner, of Ohio, as its President to Work Crown Mountain, Gold Mine.

The Crown Mountain Gold Mining and Milling Company was organized on the 26th ult., by electing Gen. A. J. Warner, of Manetta, Ohio, as president, Col. J. H. Moore, vice-president and J. F. Moore, secretary and treasurer.

The organization of this company and the development of its property on the lines proposed will mark an era in the gold mining industry of Georgia.

There has never been any division of sentiment or opinion with the old experienced miners and experts in regard to the merits of this property.

Like the old Romans who believed all roads led to Rome, the old miners here believe that all veins and leads of this gold belt including the Fishtrap, Barlow, Findley, Lockhart and Hand run to and through Crown Mountain. That it is the "central blow out"—the back bone and mother lode of the district.

The great obstacle heretofore in the development of this property has been water, or rather the necessary money to put a hundred inches of water on its crown. This we are assured will soon be provided for. With this amount of water, the unanimous opinion of those who ought to know is: that with a forty stamp mill a good dividend can be made on the amount of capitalization ($2,000,000.00.)

The personell of the company is all that could be desired for the successful operation of a great gold property.

Gen. Warner, the president, has a national reputation as a soldier, statesman and successful business man. Much of his life has been spent in carrying on mining operations by which he accumulated an ample fortune. As a scientist he ranks with the first, and we doubt very much if his equal as a geologist, mineralogist or metalurgist has before been identified with this section. His integrity in public or private life has never been questioned. The success he has achieved in the development of his gold mines in Cherokee county is an earnest of what he will do here.

Col. J. H. Moore, the vice president, has been with us for some time and is well and favorably known, and while he has not had the experience of some in developing gold mines, he has had much experience in mining ventures of a kindred character, and his judgment in the organization and exploitation of such companies is of the greatest value.

J. F. Moore—Frank as we know him—is the secretary and treasurer, and we learn in all probability will be the general manager. He is well known in the entire section and is regarded as one of the best "all round" mine operators in the district. His judgment on mines and mining is almost unerring. He has been successful in all his business undertakings and especially so in all matters pertaining to mines and mining. He has never undertaken the control and operation of a gold mine without success. His character for honesty and integrity is the very highest, and without blemish. His word is as good as his bond. And when he says, as he does say, that with proper business management a good dividend can be made by this company on the amount of its capitalization, every one believes it.

Judge W. W. Murray, while not an officer in the company, will be a large stockholder, and will give the new company the full benefit of his experience and mature judgment. The Judge has spent more than ten years in the examination of the formation and the value of the minerals of the district, and no one has clearer ideas of its present wealth or greater faith in its future. His spotless character is a guarantee that any enterprise in which he is connected he sincerely believes his real merits.

Upon the whole we believe the Crown Mountain combination to be one of the great gold mining properties of the Appalachian range and with the intelligence, experience and knowledge of its management it should be made to pay "big dividends."

Graded School Honor Roll.

This month closes the first term of our school. The second term will begin Febuary 1st and close June 2nd. The year thus far has been one of unusual profit and interest to the pupils and of satisfaction to the teachers. The remaining part of the school year will be even more important if that were possible—than the months already past. The teachers are progressive in spirit, and will strive to make their instruction during the ensuing part of the year even more efficient than it has been.

At the close of the present month the final examinations will be held, covering all work of the first term. On these examinations will be determined, in part, each pupil's proficiency and fitness for advancement into the next higher grade at the begining of the next scolastic year. No pupil will be permitted to advance unless capacitated to do so.

Following is the honor roll for December, showing the pupils of each grade who have maintained an ayerage scholorship of E (90), and have been perfect in attendance punctuality and deportment:

Grade I: Josie McDonald, Homer Tolbert. Sec. Division, Emmett Howell, Flossie Jackson, Fanny King, Birdie Stumm.

Grade II: Francis Stanton, Ora McKee, Mattie Craig, Paul Vaughn.

Grade III: Pearl Anderson.

Grade IV: Ollie King, Mary Thomas, Carl Williams.

Grade V: George Stanton, Jimmie Witt, Noah C. Head.

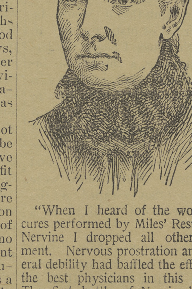

Grade VI: Weir Gaillard, Eliza McAfee, Chas. S. Moore.

J. M. Martin, Principal.

Miss India Davis, daughter of our sheriff, and Mr. Ben Whitmire were wedded by Squire Allen last Sunday night. It was a runaway match, the father of the young lady being opposed to the wedding. The license was procured Christmas eve night but Mr. Davis got wind of it and kept a watchful eye on his girl but it did no good. On the night of the wedding the young lady waited until her father had pulled off his shoes and started to undress when she had an excuse to step into another room, and it was not long before the young lady was out of the window and on the way to the Squire's house with her lover and the knot tied and off and gone before the angry parent had time to reach the place. As soon as Mr. Davis missed his girl he struck out bareheaded and barefooted while the thermometer registering at about zero, and went to several places, including the church, and when he reached Squire Allens was informed that he was fifteen minutes too late.

Macon had six inches of snow on the 31st ult.

Dropped All Other Treatment.

"When I heard of the wonderful cures performed by Miles' Restorative Nervine I dropped all other treatment. Nervous prostration and general debility had baffled the efforts of the best physicians in this section. The first bottle of Nervine brought relief. I continued using it together with Dr. Miles' Heart Cure until health was again restored."

Mrs. C. W. Olmsted, Kickapoo, Okla.

Dr. Miles' Nervine

is sold by all druggists on guarantee, first bottle benefits or money back. Book on heart and nerves sent free.

Dr. Miles Medical Company, Elkhart, Ind.

In Pain?

In the Back? Then probably the kidneys.
In the Chest? Then probably the lungs.
In the Joints? Then probably rheumatism.

No matter where it is, nor what kind; you need have it no longer. It may be an hour, a day, or a year old; it must yield to

Dr. Ayer's Cherry Pectoral Plaster

Immediately after applying it you feel its soothing, warming, strengthening power.

It quiets congestion; draws out inflammation.

It is a new plaster.

A new combination of new remedies. Made after new methods. Entirely unlike any other plaster.

The Triumph of Modern Medical Science.

The Perfected Product of years of Patient Toil.

Placed over the chest it is a powerful aid to Ayer's Cherry Pectoral in the treatment of all throat and lung affections.

Placed over the stomach, it stops nausea and vomiting; over the bowels, it controls cramps and colic.

Placed over the small of the back, it removes all congestion from the kidneys and greatly strengthens weakness.

For sale by all Druggists.
J. C. Ayer Co., Lowell, Mass.

Marshal Anderson arrested and lodged Joe Corn in the Caleboose last Sunday for failing to pay a fine which had been imposed on him last summer. Joe got a little puny and in order to get out signed the following singular document: "I, Joseph Corn, do solemnly swear before God and these witnesses that I will personally be and appear at the city of Dahlonega, Ga., on Saturday, the 6th day of January, 1900, with money to pay my fine and cost. Should I fail to do so without the cause of Providence I hope that God will strike me with lightning and send me to hell."

State of Ohio, City of Toledo, } ss
Lucus County, }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co. doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Frank J. Cheney.

Sworn to before me and subscribed in my present, this 6th day of December, A. D 1886.

{SEAL} A. W. Gleason, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. Cheny & Co., Toledo, O.
Sold by Druggist, 75c.
Hall's Family Pills are the best.

Your attention is called to the advertisement of Moore & Bro. to be found in another column who are engaged in the livery business at the stand below Main Street bridge at the the old Public Spring, formerly run by Hughes Moore and Clyde Meaders. Mr. George Moore has purchased the interest of Mr. Clyde Meaders and hereafter the business will be run by the two brothers. These young men were born and reared in Dahlonega and their manner of doing business in a fair way is too well known to receive any comment from us. Give them a share of your patronage.

Special cash bargains will be offered by Jan. 15th at

Anderson & Jones.

S. L. Prater, of Buford, Ga., has purchased the residence of J. M. Brooksher and will move here this week.

Virge Parks and Alfred Foster, charged with selling liquor in Dahlonega, were tried and acquitted by Mayor Price yesterday.

Dahlonega, Ga.

THE NUGGET.

DAHLONEGA, GA., JAN. 5 1900.

A happy new year to all our readers except those who borrow the paper.

If you want your job work done neat, cheap and prompt bring or send it to the NUGGET office.

Now is the time to advertise your business if you wish to increase your trade this year.

Prof. B. G. Parks, principal of Clarkesville high school spent one or two holidays in Dahlonega last week.

We have had rain, sleet and plenty of ice since Christmas causing a drawback to most all out door work.

Guy Reese, who has been in Kansas in the employ of Uncle Sam for some time, returned home on new years day.

B. P. Gaillard, Jr., who is taking a law course at Athens, spent Christmas with the "old folks at home" in Dahlonega.

Now is the time to subscribe for the NUGGET if you want to keep posted in the progress of Dahlonega and Lumpkin county.

Capt. and Mrs. H. D. Ingersoll, after spending some time at their old home in the north, returned to Dahlonega last Saturday.

On Thursday before Christmas Mr. Thomas McDonald was wedded to Miss Martha, daughter of Mr. Wash Satterfield, by Squire W. J. Worley.

Some thoughtless person went off last Saturday and left a nice cooked turkey at the post office which no doubt had been sent to the one to devour during the remaining holidays.

Dept. Marshal Grizzle went back up into Chestatee district a few days ago and pulled out another still from the same furnace he had found one a few days previous. The operator was not to be found.

In justice to W. H. Jones we will say that he was away from Dahlonega when the jug of blockade liquor was seized in his stable recently belonging to Virge Parks. He says that he had told Parks before to keep away from his stable with liquor of this kind.

We have transfered our subscribers names to a new book since last issue. If there is any mistake and you don't get your paper let us know at once so we can rectify it. If your time has expired and you wish to continue reading the NUGGET you know what it takes to have it continued.

Rev. Mr. Verdell, the newly appointed pastor of the Methodist church at this place, arrived last Saturday and delivered his first sermon here at 11 o'clock the following day, and again filled the pulpit at night. Both sermons were very instructive and interested every one present.

Nelson Stoyer was brought in last Saturday night by Deputy Marshal Grizzle from White county, charged with illicit distilling but a sufficient amount of testimony failed to be produced to justify Com. Baker in binding him and the prisoner was released and let go his way rejoicing.

One day during the holidays Will Stevens, col., was shot in one thigh and hand by his brother Aaron with a shot gun, which rendered him unable to be out for some days. It is said to be an accident while Aaron was trying to shoot a chicken. Other say it was not the case. So we tell it as told us.

J. L. Rice, one of Dahlonegas most experienced deposit miners left last Monday for the coal fields of Alabama for the purpose of digging coal and making that state his future home. If he is as successful in mining for coal as he has been for gold there is no danger of his failing. He had not "dug all his gold" here but is getting too old to stand the water well is why he is making the charge.

Mrs. Nannie Adams has been in Dahlonega for a week or so on a visit.

Mrs. W. B. Woodward fell from a porch last Saturday and received painful injuries.

C. S. Marsland, who has been here for several months, left for his home in London one day last week.

John Woods, Jr. was presented with a beautiful present Christmas night—a nice little boy with strong lungs.

Twenty new subscribers for December besides a number of renewals. Would give names if we had the space.

We notice the pleasing appearance of Arch Anderson in town again after an absence of some time in Gainesville.

G. McGuire has just received a nice line of all kinds of shoes including rubbers for both large and small, male or female.

Mr. Earnest Hutchinson, of Lumpkin county, was wedded to Miss Maud Smith of Dawson, on Sunday before Christmas.

A number of the lovers of sports secured a lot of patridgies and enjoyed themselves awhile Christmas day to see who was the best shot on the wing. Frank Jones came out victorious.

The large addition to the Consolidated, Co's Store will soon be ready for occupancy. Mr. Keer, who was at work on the company's large three story hotel suspended work on that building and put all his hands on the store house so as to give them more room at the quickest possible time, and the gentleman has certainly been putting things through up that way for the past week or so.

C. Oliver, of Fannin county was arrested by the city marshal a few days before Christmas and a small quantity of liquor in a jug seized, who was fined $5 and cost for selling which was promptly paid and the man went away rejoicing. Oliver was the first person that was ever fined by a mayor for selling liquor in Dahlonega. The last legislature gave the mayor this right which the defendent was not aware of and he got his foot into it.

The number of arrests by the city marshal for the past year in Dahlonega has been a big increase over any previous year. The total number being 128—103 being since Marshal Anderson was appointed last August. The following casses have been disposed of since our last issue: For retailing liquor, Colonel Oliver and W. R. Smith. The former was fined $5 and cost and the latter $25 and cost. The following peorsons were fined each one and cost for disorderly conduct: Ben Whitmire, Walter Rice, Chas. Housley, Maud Blackburn, Jack Townsend, Harve Hutson, Tom Ducket, Arverter Sullins, I. O. Parker and T. S. Grant.

George Corn is now behind the bars of Lumpkin county jail charged with an assault with intent to murder and will have a commitment trial today. On Christmas day he picked up an ax and with a heavy blow stuck the blade into Will McDonald's back just above the hips about four inches deep, causing McDonald to drop to the ground like he was shot. The wounded man was brought to town and is under the treatment of Dr. Whelchel. At first it was believed that he would die but now he is improving and getting along much better than was expected, being able to get up. That night warrants were issued for George Corn, one of his brothers and Lon Childers, the latter two being at the time believed to be connected with the affair, but since have been dismissed from the warrant. The origin of the trouble is said to have grown out of a certain illicit distillery which was destroyed in that settlement previous to this trouble, in which little John Corn, a relative of George, was captured by Marshal Grizzle—the Corns believing that Will McDonald did the reporting, which made them mad.

The thermometor stood at twelve last Tuesday morning.

The Graded School and College opened again last Tuesday with some new students.

Meaders & Sons left this week with a fine large drove of mules and horses for the lower market.

A gentleman, who was up from Dawson county last week, had the measure of a poplar stump on the Wilder place in that county that measure 30 feet round.

During Christmas Joe Nath Wilkins, of Yahoola district, was hit four times on the head by rocks thrown by Noah Lance. It is said that Lance didn't miss the target a single throw.

The woman tramp spoken of in last issue dinn't take Christmas in Dahlonega. The last heard of she was at Gainesville enquiring what the Arlington Hotel was. The woman evidently is crazy.

The report some weeks ago that Capt. Jacob Imboden, who used to reside in Dahlonega, was dead, is correct. We have been shown an official notice of his death. He died in San Pedro Dec. 15.

John Moore and James Phillips, of Dahlonega, so far have killed the largest hogs this season in our county, which were butchered in time for them to have a backbone pie for Christmas. Moores weighed 398 pounds and Phillips' 405.

The blanks for those who have been receiving state pensions have been received by Judge Tate. It might be well enough to state that it is useless for any new claims for veterans to be put in now as it was the intention of the last legislature to appropriate just enough money to pay off the claims of those already sent in.

Mr. and Mrs. W. B. Fry returned to Dahlonega last Saturday after an absence of about three years in South Dekota and now occupy the Crisson house near Hall's Villa, both of whom are heartily welcomed back to our city. Mr. Fry is an experienced miner and a good mechanic. Such men as this are useful in any community.

Our citizens didn't get their Sunday papers in Dahlonega until Tuesday morning. The regular stage line was loaded down with three heavy passengers besides the driver and a lot of baggage, and the sack containing Sundays mail was put on another hack which didn't reach Dahlonega until Monday night from Gainesville at 10 o'clock. The contractor of the Gainesville and Dahlonega mail line imposes upon our citizens. He has often been reported to the department for his carelessness and negligence like this but it does no good. Great care is taken by the government to give other localities good mail facilities on the fastest possible schedule time, three or four times a day, and here we are up here in the mountains can't get our mail from a point only twenty-five miles distent once a day. The driver this time got drunk and come a differet and longer route.

Both the old and young in Dahlonega seemed to enjoy Christmas. The children of both the Methodist and Baptist churches and colored were each made happy by beautiful Christmas trees laden with nice presents, which not only brought joy to the little ones but made the parents happy too to see their children so cheerful and bright and full of glee. The poor and needy were made to feel happy too. Besides gifts from other persons Capt. J. W. Adams made a donation of about $60—twenty-four dollars to each white church and twelve to the colored—in flour, meal and meat, which was placed in a committee's hands to distribute among the needy, which caused a number of households to be happy during the holidays that would not have been had it not been for the thoughtfulness of this kind hearted gentleman. Capt. P. H. Scott also contributed $12 or $14 to the colored church which were used in buying presents for the colored children.

All merchants who advertise in the NUGGET are doing a prosperous business.

When you see a cross mark on your paper don't neglect to renew your subscription to the same at once.

Our young friend John Whelchel, of Anniston, Ala., came up and spent Christmas with his relatives in Dahlonega.

Tin Loggins and John Armstrong got into a fuss over in Martin's Ford Christmas day resulting in Loggins being bruised up considerably.

The first snow of the season here fell on Christmas day. The Blue Ridge was perfectly white all day causing the north wind to feel very unpleasant to all fun lovers desiring to be out of doors during the day.

C. W. Ash, the overseer of the Lumpkin county's pauper home raised more produce on the farm last year than has been for many, which shows that he thoroughly understands his business. He made 27 one horse loads of hay, 1300 bundles of fodder, 150 bushels of good corn, 33 gallons syrup, 40 or 50 pounds of tobacco, 21 bushels of sweet potatoes, 5 bushels of Irish potatoes, four or five hundred good cabbage heads, and 5 bushels of onions which he sold at $1 per bushel.

Christmas passed off very quietly, with but little drinking and only one little fuss which only disturbed the other citizens to the amount of three dollars as was believed by Mayor Price. The stores were all closed causing the day to look like Sunday had it not been for the explosion of fire crackers by the little boys. No accident occurred from fire works in Dahlonega of a serious nature that we have heard of. As is usual a few boys got their hands injured slightly. Taking everything into consideration a more pleasant and agreeable Christmas never passed off in Dahlonega.

It becomes our sad duty this week to chronicle the death of J. W. Weaver, which occurred at his residence some three miles from Dahlonega on the 23rd ult. His death was not a surprise as he has been declining in health for several years. The deceased was one of Lumpkin county's most highly respected and public spirited citizens, one whose friends were numbered by the hundreds. He leaves a wife and a number of sons and daughters to mourn his sad demise. His remains were laid to rest in Mt. Hope Cemetery at Dahlonega the followiug Sunday afternoon by his Masonic brethren in the presence of a large concourse of people.

A few days before Christmas John Byers, col., whipped his wife causing him to stay out of reach of the marshal for some time. At last Marshal Anderson got sight of the negro and made an effort to catch the fugitive but he was too swift on foot and the marshal jumped on a horse and got so close to the negro that he ran into the smoke house at the jail and pulled a big box over him. He was caused to come out from his hiding place and go before Mayor Price who fined the defendant two and cost. The negro had no money to pay his fine and was put in the calaboose and only the inside door closed which gave him an opportunity to peep through the bars and look at his once loved wife who would go and stand about the prison door and sympathize with the darling of her heart. The negro seemed to delight in whipping his wife, and one day while she was standing at the door he had her to give him the chain to the outside shutter which he pulled to and had his wife imprisoned between the two shutters, a space of about sixteen inches, and there jobbed her with a stick until her screams brought some one to her relief. After that some unknown person broke the prison lock and they are both gone to other parts and our citizens are glad to get rid of them.

Rev. J. E. Blackburn has moved to Dahlonega.

If you desire to either purchase or rent a desirable eleven room house call on E. W. Strickland. See ad. elsewhere.

Mrs. Ingram, a very old lady who resided in Yahoola district died last Tuesday night.

A fine cow belonging to John Moore had her neck broken by being run out at a high door of Hall's stable by Perry Anderson last Wednesday.

Just printed a lot of Justices Court summons and fi. fas. Come or send for some and fix your official papers up properly and according to law.

The salary of C. W. Ash, keeper of the pauper's home has been raised to one hundred dollars this year. There are now six inmates and plenty of everything that is produced on a farm to feed them on.

NOTICE.—We will no longer do a time business, but have reduced prices and will sell strictly for cash and barter. We thank our customers for past patronage and hope to share a part of the same in the future.

ANDERSON & JONES.

Rev. E. R. Cook and lady gave the official members of the M. E. Church and their wives a supper at the parsonage last Wednesday evening, which gave them an opportunity to get acquainted with Rev. Mr. Verdell, the new pastor. The supper was excellent and the occasion generally a very pleasant affair, causing all present to enjoy themselves very much.

We regret to chronicle the death of W. M. Simmons which occurred in Hightower district on the 23rd of December of typhoid fever after a brief illness. The young man was in our town only a short time ago seeking employment so as to enable him to become a citizen of Dahlonega. At that time he was a perfect picture of health but shortly after returning home he was taken sick and in fifteen days afterwards he lay a corpse surrounded by his sorrow stricken mother and other relatives.

Capt. J. W. Woodward, as has been his custom every Christmas for years, made a large paper balloon so as to have a balloon ascension Christmas night for the benefit of the children, but just as it was rising one of Peck's bad boys threw a rock through the balloon, which caused the heat to escape and end that kind of pleasure for the year 1899.

A while after dark Christmas when all who had been indulging strong drinks, were out and feeling pretty "dry," the news reached town that a blockader had arrived on top of Crane's Hill with a small supply of liquor. The news spread like wild fire and in less time than it takes to tell it nearly every fellow that could secure a bottle, oil can or coffee pot was moving off in that direction. Marshal Anderson and his assistant, Mr. Coffee, got wind of it and made for the place too. When they got there they found the Hill covered with men. It was not long before they located the blocker with a jug, and just as he was in the act of delivering it to a customer a rush was made by the officers, one taking the man and the other the jug and back to town they came while the rest of the crowd dispersed in every direction. The prisoner proved to be a young Mr. O'Bryan who works down at the Hand mine, who asked to be allowed to give bond. While the prisoner was being escorted by officer Coffee to see if the bond could be made Marshal Anderson decided to see whether the seized vessel contained whiskey or brandy. It was neither one, but only a jug of water with which to fool the officers. With a dry grin he released the prisoner and dismissed the witnesses. Those that understood the trick laughed heartily but those that didn't looked dryer than ever with their empty vessels.

Mining Notes.

The Singleton mill and all others in this section were frozen up a few days this week.

J. W. Adams, president of the Consolidated Co. left this week on business to be gone some two or three weeks.

G. W. Reeves, who resides near New Bridge, is now drinking water off of a gold mine which was discovered recently while digging his well. A test of the vein was made and it proved to be good.

Frank Moose was down from the Hamby mine a few days ago who reported things moving along in a progressive manner—taking out a sufficient amount of the yellow metal to make it interesting to the manager.

D. T. Harris, general manager of the Big Joe mine, paid us a short visit one day last week. Mr. Harris informed us that they had gotten their shaft seventy-five feet deep and intended to commence dritting out on the veins last Monday morning.

R. L. McCabe, of Illinois, and Gen. Warner, of Ohio, both spent Christmas in Dahlonega and while here interested themselves in the Crown Mountain Gold Mining Co. As they have made an investment here they will both visit us frequently hereafter.

Things down at the Stewart mine are moving along in good shape. The mill is now running on good ore. The two recent discovered veins are said to be very rich. One can make from $10 to $15 per day with a mortar beating by hand. This is on the Findley lead and the only mill on it. Why it is that others are not put up along the line of this belt we cannot see unless it is because the owners of the property haven't got the money.

Work is progressing as rapidly down at the Hand on the big mill and chlorination plant as labor can do it. Some of the mechanics never stopped work even on Christmas day but kept the saws and hammers in motion, performing a work which has long been needed in this section, while others were drinking and spreeing and idleing away their time. The full number—120 stamps—are in position and quite likely all the concentrating tables are put up by this time as they only liked about half dozen first of the week. All other machinery in the mill and plant is being put in position as fast as it can be done. The big ore bin is nearing completion, and a large force of hands is at work on the ditch and will have the water to the mine by the time it is needed. Everything is moving along with a rush, though in a good substantial manner. On Monday a rich sulphuret vein was struck in the big tunnel, the exact size of which is not known. Already five feet of the vein has been cut and it is not known yet how much thicker or breader it is. The service of Alvin Brooks, of Deadwood, S. D., has been secured as an assistant of Capt. Ingersoll, the general manager of the mine. Mr. Brooks has much experience in deep mining. From what we learn Mr. Brooks is the right man in the right place and the company has acted wisely in employing this gentleman owing to the fact that it proposes to have much of this kind of mining done. The core drill for testing purposes, is in place, and so far works like a charm, enabling them to bore down to a considerable depth, take out the core when striking a vein, test it and ascertain the true value of the same.

The Christmas just past was a very unpleasant one for Thomas Lemly, he being injured so severely down at the Hand mine some time ago by a caye that he has been unable to leave his bed since and there is no telling when he will, but kind friends didn't forget or neglect him in his distressed condition, but sent him many gifts so as to make him spend the time just as happy as possible for one in his condition. Two men—one during the day and the other at night—have been looking after him ever since his injuries, who are paid by the owners of the mine.

Cigarette Fiends Must Go.

The Southern railway system has declared war against the cigarette.

A pipe or a cigar can be tolerated by the management of the big railway company, but a cigarette "provokes them to wrath"—and likewise bars the smoker thereof from further work among their great network of lines throughout the south.

An order has been issued in South Carolina to this effect, applying to the system throughout that state, and Assistant General Passanger Agent S. H. Hardwick says it may soon be made applicable to all the different brancnes of the road. The order issued by the South Carolina department is an ironment of the line throughout that state. The order, in substanc, says that all employes who smoke cigarettes must either give up the weed or lose their position and further, that no man will be employed in the future who is a cigarette smoker.—Eagle.

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind. and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give releif within a very short time. The sales are growing, and all who try it are pleased with its prompt action.–South Chicago Daily Calumet. For sale by F. W. Hall Mdse Co.

Mr. G. Crawford, of Kenton, Ohio, has had a force of men at work for about two weeks on the iron ore banks of Col. Mike Mc Kinney just sorth of the water tank. He has shipped several car loads to Middlesboro and other places with good reslts. He informs us that he will have sidings put in at the mines and that the ore will be shipped in large quantities, giving employment to quite a number of men. This ore was worked by the old forge and hammer process before the civil war and was pronounced the best in North Georgia. Mr. Crawford thinks that with the advance in iron that we now have the business will prove very profitable and add materially to the business of our town.—Blue Ridge Post.

The last legislature provided pensions for indgent widows of Confederate soldiers.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.

50c. and $1.00, all druggists.
SCOTT & BOWNE, Chemists, New York.

More than 2,000 negroes left Morgan county just before Christmas for Mississippi.

The claims for pensions in the Spanish-American war already filed amount to 25,000.

Thirty thousand hungry people in New York were fed by the Salvationists at Madison Square on Christmas day.

Augusta had another big fire the other night. This time amounting to $175,000. The Georgia Iron Works was among the loss, throwing about two handred men out of employment.

I want to let the people who suffer from rheumatism and sciatica know thatChamberlain's Pain Balm relived me after a number of other medicines and a doctor had faiied. It is the best liniment I have ever known of.—J. A. Dodgen, Alpharetta, Ga. Thousands have been cured of rheumrtism by this remedy. One application relieves the pain. For sale by F. W. Hall Mdse Co.

Be particular and don't use any old postage stamps so as to save a few cents. It was only a few days ago that Judge Newnan sentenced a young man from Hall county to pay a fine of one hundred dollars else serve six months in the penitentiary for using a two cents stamp which had been canceled.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chumberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by F. W. Hall Mdse Co.

PATENTS
CAVEATS, TRADE MARKS
COPYRIGHTS.

CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. $3 a year. Sample copies sent free.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address
MUNN & CO., NEW YORK, 361 BROADWAY.

The Gentlewoman
OF NEW YORK CITY,

Wants an agent in your town. It gives premiums of Cameras, Bicycles, Sewing Machines, Desks, Sets of Dishes, Rings, Watches, Shirt and Silk Waists, Handkerchiefs, etc.; in fact, about two hundred useful and ornamental articles and household necessities can be secured without costing one cent. A new and attractive plan of securing subscribers without the objectionable features of canvassing.

$1000.00 IN GOLD AND A $950.00 PIANO | Given Away Free In Addition to Our Regular Premiums.

We send our complete outfit and easy plan for raising clubs Free, also our Mammoth Premium List. You will be surprised and delighted with the high quality and great assortment of our premiums, and in addition we are going to give away $1000.00 in Gold and a $950.00 Piano. Drop us a postal card to-day for full particulars; do not delay. Everything will be sent you Free.

Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Twice-a-Week Journal for

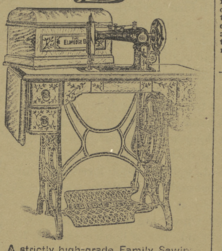

$1.50.

Here you get the news of the world and all your local news while it is fresh, paying very little more than one paper costs. Either paper is well worth $1.00, but by special arrangement we are enabled to put in both of them, giving three papers a week for this low price. You cannot equal this anywhere else, and this combination is the best premium for those who want a state paper and a home paper. Take these and you will keep up with the times.

Besides general news, the Twice-a-Week Journal has much agricultural matter and other articles of special interest to farmers. It has regular contributions by Sam Jones, Mrs. W. H. Felton, John Temple Graves, Hon. C. H. Jordan and other distinguished writers.

Call at this office and leave your subscriptions for both papers. You can get a sample copy of either paper here on application.

THE ELDREDGE "B"

A strictly high-grade Family Sewing Machine, possessing all modern improvements.

Guaranteed Equal to the Best

Prices very reasonable. Obtain them from your local dealer and make comparisons.

EASTERN OFFICE: 839 Broadway, N. Y. BELVIDERE, ILL

NOTICE TO BRIDGE CONTRACTORS.

Georgia, Lumpkin County:

Sealed bids will be received by me at my office in the court house in Dahlonega, Georgia, until Friday, January 5th, 1900, at 12 o'clock, M., for the furnishing of all tools and material and building of two solid stone dry piers at the crossing of the Dawsonville road on the Hightower river at the site known as the "Castleberry Bridge" in said county, in such position as may be designated by me. Said piers to be on bed rock foundation, of well laid stone throughout and without mortar. The pier on the East bank of the river to be 10 feet high, size 8x16 at base by 5x16 feet at top. That one on West bank to be 17 feet high, size 8x16 feet at base by 5x 16 feet at top, and to be 125 feet apart from center of piers; together with dirt fills or approaches from the bank on that side to the top of each pier on a level with same.

Also until the same time, at same place and in the same manner will be received bids for the furnishing of all tools and material and building and erecting a bridge of one span 125 feet long, separate bids will be received for the building of wood and of steel structure, If built of wood to be a covered Howe-Truss Bridge with road way 10 feet wide in the clear and to be built according to the plans and specifications of file in my office. If built of steel to be of same length, 125 feet between center of piers, and road way 12 feet wide in the clear and in accordance with plans and specifications of Steel Truss Bridge of file in my office.

The right to accept a bid for either a wood or steel structure reserved.

The right to reject any and all bids for both piers and bridge reserved.

Bond will be required of the successful bidders for faithful performance of the contract and keeping in repair in terms of the law.

Payment to be made in full on December 20th, 1900.

W. H. C. TATE, Ordinary,
Lumpkin County, Ga.

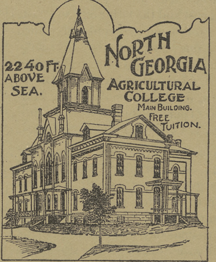

This November 29th, 1899.

A Letter From Rev. D. M. Edwards.

EDITOR NUGGET:—

I drop you a line to let the readers of the NUGGET know how we are getting on since we left Dahlonega.

After a brief visit with relatives and friends in Atlanta, and at Forsyth, at which latter place I preached to the friends of my youth. Some members of the quarterly conference which licensed me to preach are alive and in their accustomed place at all the regular services of the church. A visit to the old home cannot be described. Sorrow, gladness, joy, pain, tears and laughter greet us as we meet the friends of other days and for a time live with them, the past again. I also preached for Rev. R. F. Eaker at Atlanta.

Dahlonega is to me though the only place that seem like home anymore, in Georgia. Still, in obedience to the power that be, we came away from the place so dear to our hearts, and from friends, whom we never expect to love others better, but we came away as faithfully as we went and as confident of the blessings of God as we went to Dahlonega.

Villa Rica and Temple charge has no parsonage, but before we reached Villa Rica the good people had rented for the pastor and family a nice six room cottage and furnished it from stove room to parlor, with nice new furniture, paying for all things furnished as they were purchased and also paying a years rent in advance, they also had a warm supper for us, in many ways shown love, appreciation and loyalty, that certainly should make us love God, His church and these good people.

We hopefully anticipate a good year. At Temple we have a nice brick church, perhaps the best church building in the District, but there is a debt of about $500 on it. I have now pledged nearly $250 of this debt and hope in the near future to raise the balance due, pay off the debt and dedicate the church.

Rev. C. M. Verdele, who was the pastor here during '99 has many warm friends who enquire after his welfare. He is much loved hereabout.

To all the people who helped us at Dahlonega last year, by giving us their aid sympathy and co-operation, we are grateful. All our collections, salary, etc. paid in full. Nearly $1000, raised for all purposes (not half of this, however goes to the support of the ministry.) 39 accessions, and a net gain of 29, the parsonage improved, etc. while not near what should have been done, is not a bad years work. I hope you will have much better this year. I bespeak for Bro. Verdele hearty co-operations, and large success.

In our heartfelt graditude, none is more deserving and to none is the same more heartily given than to the NUGGET and Signal, for numerous kindnesses shown us.

A happy New Year to all.

Sincerely yours,

DUNCAN M. EDWARDS.

Villa Rica, Ga., Jan. 2, 1900.

Virginia Company to Build Castleberry Bridge.

Last Friday at noon was the time for the opening of the bids for the building of the Castleberry bridge in Lumpkin county across the Hightower river near Auraria, which was awarded to the Virginia Iron and Bridge Co., at Roanoke, Va., for the sum of $1,930, and Wm. Donaldson and W. T. Stringer, of Lumpkin county, are to construct the pillars for $340. This company has built several iron bridges in this county and thus far has given entire satisfaction.

Quite a number of bids were made, the names and amounts are as follows:

Chamberlain Bridge Co., 8 panel $2,260, 6 panel $2,075.

King Bridge Co., Cleveland, Ohio, $1,989.

Geo. E. King Bridge Co., Atlanta, Ga., $2,040.

Geo. H. Craft, Atlanta, Ga., $1,965.

Virginia Iron and Bridge Co., Roanoke, Va., 8 panel $1,930, 6 panel $1,800.

James Nunn, Gainesville, Ga., (wood) $950. Stone $4,09 cubic yard.

I. C. Edwards & Bro., Dahlonega, Ga., (wood) $1,620. Piers $21.09.

J. F. Sargent, Dahlonega, Ga., (wood) $19,75. Piers and approaches $800.

Donaldson & Stringer, Halfway, Ga., piers $340.

J. M. Whelchel, New Bridge, Ga., piers and approaches $549.

Jas. Loveless and John Fletcher, Dahlonega, Ga., pillars and approaches $675.

W. J. Burt, Burtsboro, Ga., pillars and approaches $545.75.

STATE OF OHIO, CITY OF TOLEDO, } ss
LUCUS COUNTY, }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my present this 6th day of December, A. D 1886.

{SEAL} A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

F. J. CHENY & Co., Toledo, O.

Sold by Druggist, 75c.

Hall's Family Pills are the best.

As a suggestion to advertisers, the following from the Philadelphia Record is to the point, and true: "anything worth selling should also be worth telling about. There is no better way to do the telling than through the medium of an advertisement. A well placed and graphically worded advertisement reaches hundreds of readers, to whom the merchant is thus enabled to speak directly and with profit to himself, without leaving his place of business. In no other way can he so cheaply and so effectively address so many people within the same period of time."

Mr. Moody, the great evangelist, is dead.

Story of Noses.

The features are developed by the mind. A child that is reared amid pleasant surrounding, and whose mind is filled with pleasant thoughts, will have a pleasant face. The shape of the nose and chin will depend entirely upon the strength and character of the mental faculties.

At ten a boy's nose may be small and turned up at the end at 15 it may have grown larger and straight, and at 25 it may be pronounced Roman. It all depends upon his mind.

The Romans had big noses with high bridges, because they were a steady and determined race of people. Sturdiness and determination will give a man a Roman nose, no matter how stubby his proboscis may have been when he was born: The Greeks have straight, delicate, finely chiseled noses because their tastes are artistic (Frank Stanton excepted) with a Roman nose or snub.

On the other hand, it would be hard to find a great general who had not a Roman nose. See pictures of Alexander the Great, Napolean, Wellington, Washington, Lee, Jackson or Grant and see if they have not all got big, strong noses. These men were not great generals because they had Roman noses, they had Roman noses because they were great generals.

Backward Child.

The backward child may be deficient in application, not in capacity. Should this be so, arouse him not by a hailstorm of nagging or a downpour of fault-finding, but by a system of reward-loving adapted to his disposition and character. Suffer no discouragement to creep into your own heart concerning him, and do not allow him or her to feel that there is reason for any doubt reaching the top of the ladder in due season. The top, mind, not the middle rounds—anyone can reach these. Set a definite aim before your child; cultivate a high and noble ideal, but willing to climb slowly. Haste is at the root of many failure—haste and lack of thoroughness as one goes on.

A letter in going from Key West to the Klondike travels a total distant of 7,000 miles, yet it is carried the entire distance by Uncle Sam for two cents. It goes by railroad, steamboat, stage, horseback and dog sled and is on the road for nearly 40 days without a rest.

Hyman L. Richerson has been appointed deputy collector in the internal revenue service with headquarters at Gainesville, to succeed E. L. Bergstorm who has been transferred to Athens.

John D. Rockefeller advises young men to keep a careful record of all expenditures and receipts so that at the end of every year they may tell whether they are saving enough to provide against the inevitable rainy day. "It is," he says "the best means of checking foolish expenditure. Most anyone," he says, "can make money, but only a few know how to save it."

G. H. McGUIRE,

THE NUGGET,

DAHLONEGA, JAN. 12, 1900.

Entered at the Dahlonega, Ga. P. O as Second Class Matter.

There were 9,393 failures in 1899.

The grand jury of Sumpter county is the first to recommend the dog law, which was done last week and it is now law in that county.

Stermen Rivers, col., was hanged in Swainsboro, Ga., last Friday for the murder of George Perdue, if what he said is true, he is in paradise.

The last legislature passed an act which has been signed by the Governor, making it unlawful to net quail or partridges in Georgia at any season of the year.

Soon after Frank Moose returned to White county from Dahlonega recently the house which he occupied was destroyed by fire but he saved all his furniture.

Dr. W. W. Landrum, pastor of the First Baptist church in Atlanta, has gone to Havana to see if it is practicable to establish a church there of English speaking Baptists.

The state republican convention meets in Atlanta on March the 7th at which time it is believed Hon. W. L. Scruggs or Walter Johnson will be named as a candidate for Governor.

Gov. Candler has put his signature to the dog law bill and it is left for the Grand Jury of each county to say whether it will become operative in their respective counties or not.

Three thousand and six hundred hogsheads of tobacco were destroyed by fire at Richmond, Va., on the night of the 5th in the Merchants and Planters warehouse, valued at $350,000.

A negro man was killed near Chattanooga, Tenn., the other day while trying to thaw a stick of dynamite which exploded. This should be a warning to those who handle it carelessly about the fire.

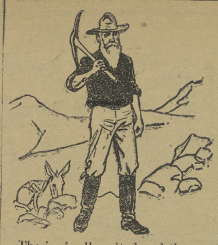

A few days ago a man and woman arrived in Dahlonega who say that they walked all the way from some point in Virginia. We have seen the woman but not the man. It is said that he carries a pistol buckled around him all the time. This is something unusual for this country.

At a Texas hanging on the 5th ult. two condemned men, G. Parra and A. Flores, fought to escape the gallows with dirks made of wires. One officer was severely wounded and others injured, before they could be put to death. One's neck was almost torn from his body when hung.

Hall Superior Court convenes next Monday with a very important criminal docket on hand. Thomas Chapman, charged with arson; Taylor Hamilton, Charlie Tanner and Tom Bryson, charged with murdering Si Smith in jail, and William Dudley, who killed two men and chopped them to pieces.

The last legislature passed a bill requiring all cigarette dealers to register in the ordinary's office by the first of January and pay a tax to the tax collector. About 80 in Macon out of 120 have registered and paid taxes and those who have failed to comply with the law will likely be prosecuted by the grand jury of that county now in session. Photographers are also required to register by the first of January.

Mrs. William Palmer died at her home two miles from Cleveland Wednesday night of premature childbirth. She was delivered of triplets and shortly afterward breathed her last. She was a good woman beloved by all who knew her and the sorrowing husband has the sympathy of a host of friends in his sad bereavement. The interment will be at Blue Creek Friday and the mother and three children will be placed in one grave.—Cleveland Courier.

The ice is all melted and the various stamp mills in this section are moving on time again.

All deposit mining after a suspension of several days owing to the freeze up, commenced again last Monday morning.

The mill at the Cresent mine can not run until a big cave is moved from the mouth of a tunnel where ore is gotten, which will require some eight or ten days yet.

Since Mr. Brooks has taken charge of the Hand mine he has adopted ten hours as a days work which pleases all the laborers in the employ of the company.

The legislature has passed an act and it has become a law requiring all purchasers of native gold, gold dust and amalgam to keep a register and record such purchases.

The Cleveland Courier reports the work at the Longstreet mine progressing nicely. A large mill has been erected, modern and latest improved machinery has been put in place and conveniently arranged and everything about the mill gives evidence that mining will be done on an extensive scale.

Down at the Hand everything is ready to begin the big shaft as soon as the necessary timbers are received. The wire rope, which weighs twenty-six hundred pounds, is now on the ground ready for use. The size of the sulphuret vein struck last week, is not known yet. It covers the whole front of the tunnel and hasn't been cut through.

Mr. Jones, formerly of Chicago, but now from North Carolina, was here last week looking at the Cavender's Creek property, in the upper portion of Lumpkin county. He was well pleased with the pannings and said that it was the very property he wanted. A trade is now pending which is expected to take place by the first of March if not before.

J. F. Moore now has on exhibition at his office in Dahlonega a large rock about the size of a nail keg taken from a vein at the Big Joe mine a few days ago weighing 222½ pounds. An assay was made Wednesday and it proved to be worth $774.40 per ton. This is another evidence that veins grow richer as they are followed as this one is at a depth of 81 feet, 20 feet under water.

Dr. Cravens, general manager of the Chicago New South Gold Mining Co., returned from his home in Chicago last week where he had been spending the holidays. The Doctor informs us that he expects to have his stamp mill in operation by the 15th at which time active operation will commence in earnest. His company proposes to work the mine systematically and no doubt the results will be good as there is no better mining property in the county.

While Dr. Whelchel was out in the Grindle settlement last week he went to see the rich mine discovered up there some ago and witnessed some panning. He said in one panful he saw a single handful of small gravel speckled with gold. Then those were taken out and the free gold rung the pan a fingers length or longer. This will give those at a distant not acquainted with this country some idea of the richness of Lumpkin county's mineral property.

The new Hand canal dam was completed a few days ago. This work was done under the superyision of J. L. Burns, and the workmanship of the same shows that Mr. Burns thoroughly understands his business as all who have examined it pronounce it to be one of the best dams in the county. The dirt work of the canal will soon be finished and at several places on the line the tube work is progressing. The canal has been cut some larger with an eye of receiving so much of the Chestatee river as may be deemed necessary at any time in the future.

Surveys are now being made by The Crown Mountain Gold Mining Co., with a view of getting the water from the most practicable point. Three places are in view. One from Cane Creek Falls, the other from Peck's creek and the third from the Chestatee river by the use of a pump. One hundred inches of water is desired which can be had from either point. A twenty stamp mill will be erected. Some electric power will be used in running part of the machinery. It is expected to commence active work at this mine within the next few days.

We understand that there are parties here from a distant who will make an effort to organize a laborers union. We have no interest in a gold mine nor never expect to but would advise our laborers never to go into it. We have never had any labor troubles here, but when an organization is made trouble will begin. The companies are giving better wages with shorter hours than they ever did, and are paying all that they can afford. Organizing will not force them to give any more. Do good work and labor to their interest—use your best efforts to make the mines pay more, is the best way to get along and live happy and prosperous.

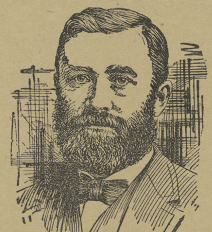

Card of Thanks.

Captain and Mrs. Joseph Allen desire to extend their sincere and heartfelt thanks to the many friends who, in their hour of affliction and distress, tendered so many expressions of sympathy and acts of kindness. We would like to mention some of their names but space will not permit. Your kindness and sympathy will not soon be forgotten.

By reference to our advertising columns you will see that F. M. Williams & Son, wish to sell out their entire stock of family groceries. Any one wishing to secure a store house in Dahlonega with a nice line of groceries this is a rare opportunity.

A man in Indiana writes to one of the members of the city council that he desires to come here and manufacture cob pipes. He says that he can make 2,500 pipes a day.

"Could Not Lie on Left Side."

"For three years I suffered from heart disease. Could not lie on my left side, had dizzy spells, and at times my heart would skip a beat. Physicians and proprietary medicines failed to do me any good, but three bottles of Dr. Miles' Heart Cure made me a healthy man."

J. J. Vanderree, Cornell, Ill.

STOCK OF GOODS FOR SALE.

WE will sell our business in the city of Dahlonega, consisting of

FAMILY GROCERIES,

with the house rented for the year, located on the public square. Call or write at once. A good business established. Our object of selling is because we are going into other business.

F. M. WILLIAMS & SON.

Just a Cough

Not worth paying attention to, you say. Perhaps you have had it for weeks.

It's annoying because you have a constant desire to cough. It annoys you also because you remember that weak lungs is a family failing.

At first it is a slight cough,
At last it is a hemorrhage,
At first it is easy to cure,
At last, extremely difficult.

Ayer's Cherry Pectoral

quickly conquers your little hacking cough.

There is no doubt about the cure now. Doubt comes from neglect.

For over half a century Ayer's Cherry Pectoral has been curing colds and coughs and preventing consumption. It cures Consumption also if taken in time.

Keep one of Dr. Ayer's Cherry Pectoral Plasters over your lungs if you cough.

Shall we send you a book on this subject, free?

Our Medical Department.

If you have any complaint whatever and desire the best medical advice you can possibly obtain, write the doctor freely. You will receive a prompt reply, without cost.

Address, DR. J. C. AYER, Lowell, Mass.

Local Items.

Mrs. Dr. Whelchel visited Gainesville first of the week.

The NUGGET office is the place to get all kinds of blanks and notes.

Work has been resumed on the Consolidated Co's large three story hotel.

Mr. Bloomer who represents one of the Toledo (Ohio) papers, arriyed in Dahlonega Wednesday.

Newton Mays, of Wahoo district is some big hog raiser himself. He killed one the other day weighing 391 pounds.

Mrs. Jap Williams left for Norcross last Tuesday to spend a couple or three weeks with her sister, Mrs. Nuckolls.

Miss Julia Perdew and Mr. Peter Lance were wedded the other day out in Davis' District by Rev. Taylor Dowdy.

L. W. Cochran has sold out his mercantile business at Randa to John Bennett who will move the goods to Wier. Mr. Cochran will move to the Johnnie Seitz place.

The following cases have been disposed of by Mayor Price since our last issue: Nez Stevens, loafing, one and cost. James Franklin, disorderly conduct, one and cost. Ernest Hood, drunk, one and cost. Melt Loveless, disorderly conduct, three and cost. Henry Whitaker, retailing, three and cost.

A merchant of Dahlonega, who returned from Banks county a few days ago, says that it is reported out there that a negro of that county is in rried to a white girl of Lumpkin who used to live some ten or twelve miles from Dahlonega by the name of Crow. He saw them in a buggy together who replied to a question: "Iz married to dis girl."

Newt. Wellborn, Bascomb Elrod and his his two brothers Will and Tom, all Hall county negroes, were lodged in Lumpkin county jail last Tuesday in default of a one hundred dollar bond each as fixed by Squire W. J. Worley, for cursing and using other obscene language last Sunday out in Wahoo district in the presence of ladies and children. R. N. Mays swore out the warrant and had them arrested by Sheriff Davis assisted by a bailiff or two in that neighborhood. They rode along the road and yelled and cursed at a dreadful rate, making the third time they have been guilty of this offence. Wellborn made bond Wednesday. The others are still in jail.

THE NUGGET.

DAHLONEGA, GA., JAN. 12 1900.

E. E. Crisson is preparing to put up a nice cottage on the west corner of his residence lot.

James Smith has sold his residence in Dahlonega to Smith Bro's of Porter Springs.

If any one subscribing for the Atlanta Semi-Weekly Journal fail to get it let them notify us.

Mr. John Whelchel and Miss Cothran were wedded in the lower edge of Lumpkin county last Sunday one week ago.

If you want twenty pages of reading matter a week for fifty-two weeks send in $1.50 and get the NUGGET and Atlanta Semi-Weekly Journal.

Last year John Montgomery, an industrious farmer who resides near the foot of the Blue Ridge in Lumpkin county, raised a large stalk of corn containing five ears, the five making a total length of twenty-eight inches.

George Corn, who stuck an ax in Will McDonald's back Christmas day, and was to have had a trial Friday waived examination and made a $500 bond for his appearance at the next term of Lumpkin Superior Court to answer to the charge of an assault with intent to murder.

Postmaster Brittain has added quite a number of boxes to the office so as to accommodate those wishing to be able to get their mail at any time after it arrives. The last ones have the latest modern combination locks, making the office the most convenient one now in upper Georgia outside of the city of Gainesville.

The other day while it was so cold Rev. V. A. Higgins, living out on the Hightower river, got on his mule and started to town to meet the Board of education, and while endervoring to break the ice so as to enable him to cross over the river the animal threw him and through the ice he went into water about waist deep and remained some time before he could extricate himself, which was quite a cold bath for the divine on such a disagreeable day. He went back home and hasn't been to town yet.

There is still a great demand for vacant residences in Dahlonega. At least one hundred houses could be rented here now. As has been stated heretofore from four to five families occupy the same houses while others are living in tents. The old Moody tan yard building is now occupied by a family, being the first time it has been used for anything in over a quarter of a century. Quite likely a large number of buildings will be put up by some one so as to accommodate those who wish to become citizens, as soon as spring opens.

Mrs. R. H. Webb received the sad intelligence of the death last Thursday night of her father, Col. James M. Bishop, which occurred at Dawsonville in the afternoon of that day. Col. Bishop had been the leading lawyer of that place for many years, was well known throughout North Georgia and had many warm friends. He had been declining in health for about twelve months and gradually grew worse and worse until death claimed him as its own. His remains were laid to rest the following day by his Masonic brethren.

Dahlonega is going to continue spreading out. We are informed that Prof. Anstead has secured a lot from Prof. J. W. Boyd just across the ridge west of the Graded School House and will build a residence on it in the spring. Besides this improvement, the city council will have the streets in that direction extended and Prof. Boyd expects to run his property off over there into town lots and other buildings will go up. Let the good work go on. We feel confident that Dahlonega's present population will double in another twelve months.

WANTED.—Young cattle. Apply to F. M. WILLIAMS.

"Babe" Coffee killed a large black snake last Monday while out hunting.

Our new list of subscribers for January is growing rapidly. The names of whom we will give at the end of the month for the benefit of advertisers.

The little four months old child of Walter Sparks was found dead in bed last Tuesday morning in Dahlonega. The night before it seemed to be in good health.

Mr. and Mrs. B. R. Meaders, of Dahlonega, are now in Swainsboro, Ga., where Mr. Meaders and his son Frank and Joe Marr carried their mules and horses to sell.

A man named Shelton and a negro called Glenn had a fight down at the Hand mine last Monday. They used picks and shovels as their weapons but were stopped before either one received any injuries. Both were discharged.

Jap Williams has purchased the lot owened by Col. W. P. Price below the rock wall near the Public Spring where he will put up a grist mill to be run by steam and a wood yard. This industry will fill a long felt want in Dahlonega.

Soon after a certain fellow the other day was speaking of putting in another application for a state pension he was trying to sell a nice looking horse. If he succeeds in selling his animal he may succeed the next time in getting his pension.

One day last week Will Grindle, who works down at the Hand, was painfully but it is thought not seriously injured, by a rock the size of a nail keg rolling down a bank some fifty or sixty feet and striking him on the side. He was soon put under medical treatment and is getting along as well as could be expected.

Smith, who was fined a few days ago for selling liquor, has left out, but the town is none the better off except his absence as the money has not been paid. It is said that he made his mean liquor in a common coffee pot out of chemicals, which caused those who drank it to feel like they had been blown up by dynamite.

A stranger before he started to Dahlonega a few days ago gave instructions for his mail to be addressed to "Pleasant Retreat, Dahlonega, Ga.," being under the impression that Pleasant Retreat was a hotel. After arriving he was very much surprised to learn that Pleasant Retreat was a postoffice up in White county.

Our streets are undergoing a little cleaning this week. Not before it was needed, however as most everything here not wanted in or about the house from a piece of paper to a dead rat is thrown out on the streets. We are now living in a city and must quit our town habits if we want our place to look well, as well as healthy.

Last Saturday David Prewitt and a colored boy named John Stevens, came near losing their lives down at the Cresent mine. They were engaged in a tunnel at the head of a deep cut. Prewitt came out for some purpose when he noticed a little dirt fall. He yelled to the negro who ran out for life and had barely gotten out of reach when in fell a cave of about five hundred tons of rock and dirt, completely covering up their tools.

Old Uncle Samuel Gooch is dead. He passed away at his home in Nimblewill district last Tuesday morning at the age of 76. He was a good old man and everybody liked him. He has been a strict member of the Baptist church ever since his boyhood and has been a citizen of Lumpkin county nearly all his life. He left home on the 31st of December in good health to visit one of his sons in Dawson county and got sick on the way. He remained at his sons until the day before he died at which time he was brought back home at his request to spend his last days where he had lived so long.

There is not a single vacant business house in Dahlonega.

The city marshal's business seems to be on the boom too.

The carpenters hammer and saw didn't cease moving in Dahlonega during all the disagreeable weather.

Col. Farrow of Gainesville came up to Dahlonega last Saturday and went on to Porter Springs the next day.

Do you wish to invest in any real estate in Dahlonega or Lumpkin county. If so examine our advertising columns.

Some of our citizens seem to be troubled with the grip again. Grip in the winter and potatoes bugs in the summer make it troublesome.

Arch Anderson, of Dahlonega, has been employed by the J. G. Hynds Co., of Gainesville, who left last week to commence work.

John Whelchel, of New Bridge, has bought out Wm. Lowe's interest in the store down there and will hereafter run the business alone.

Assistant Marshal Coffee has found a bunch of keys on a ring, which can be had by the owner calling on him and describing the same.

The committee has decided to lower the Masonic building a couple of feet and fix it up for a store house. This will make a good stand.

All our citizens can now go to bed and take a better nights rest since a watch has been appointed whose duty it is to keep a look out for fire and evil doers.

There is some talk of the council requiring a special tax of every one doing a business in Dahlonega in order to run the city government, but if it can be done without this extra tax it will not be levied.

Our subscribers in the north who have been writing to us about not receiving the NUGGET of the 29th ult., will please bear in mind that there are no weekly papers published in the south during the holidays.

Mayor Price has given the night watch orders to arrest all women of a disreputable or suspicious character who are found on the streets at an unusual hour for females to be out and lodge them in the calaboose.

NOTICE.—We will no longer do a time business, but have reduced prices and will sell strictly for cash and barter. We thank our customers for past patronage and hope to share a part of the same in the future.

AWDERSON & JONES.

T. S. Littlefield, who moved to Gainesville a year or so ago and went into the mercantile business with his brother, has decided not to follow that occupation any longer. We would like for him to join the citizens of Dahlonega again.

D. L. Pitner, formerly of Dahlonega, but now of Atlanta, has been here several days this week mixing and mingling with his many friends who are always glad to meet him as he usually greets them with a smile even if he has the grip or yellow jaundice.

An arresting officer came down from White county last week and carried back Bob Quinn, who had been down here a short while. The officer wouldn't tell outsiders what it meant but we heard it hinted that a young girl up there who is in trouble caused him to be removed from Dahlonega.

Jake Peck, who works down at the Hand mine, will have to get very sick hereafter before he realizes it. The other morning he sit down to the table after preparing breakfast and only took a bite or so before he pushed back his chair and said that he didn't feel right, that everything tasted bitter to him. After awhile it was discovered that he had gotten hold of the paper sack containing salts which were used through a mistake for salt in preparing his bread and potatoes. When he went to dine he decided he was sick on account of the victuals tasting bad to him.

Last Monday was a beautiful warm day, allowing people to sit out on their porches like spring of the year.

The interior of the Presbyterian church is being finished up nicely with South Georgia pine by Mr. Clark of Gainesville.

Dr. Howard has sold his lot on the side of the hill near Moore & & Bro's livery stable to Capt. F. W. Hall.

Town property still continues to change hands in Dahlonega. Since J. M. Brooksher sold his house and lot to Mr. Prater he has purchased Mr. Jarrards, in the lower end of town below Col. Prices.

Remember that we are not running this paper for fun. It's the money we are after. Our list of subscribers is the largest of any paper published in the county as shown by the postoffice records at Dahlonega where the papers are all weighed, and we have no dead heads, neither do we want any, or any one who wishes us to wait until the end of the year for our money.

A man who aimed to put in a bid for the building of the pillars let out by the ordinary last Friday missed the time because he didn't take his county paper, came in last Monday and subscribed for the NUGGET. He said that he didn't aim to be left any more. He quite likely lost a three or four hundred dollar by not taking his home paper. Let all who are not subscribers take warning.

Bony Tank was up last Monday from Auraria having his pension papers fixed up. Bony was first in war but is generally about the last making out his claim for a pension. The old man had been down to Gainesville since here last testing the Peruna bitters which are being sold here. He says they will cause a man to be as wild as a buck and make him fight his grand mother. Bony didn't take on any while here but went away looking as dry as a powder house.

Last Saturday was conference day up at Bethlehem church and a general reckoning was to have taken place. Some of the younger members had been playing cards along about Christmas and one of the old deacons had gotten too joyful from an overdose of strong drink at the same time. Every sweet has its bitter and this day had been set apart for them to give an account of themselves but as the pastor was not present we guess that the matter went over as unfinished business and will not likely ever be finished, as it is told that this deacon not long ago said he favored any member being expelled from the church for just taking a single drink, but as the wise legislators—many of them church members—favor its use it gave this old brother a good excuse to reconsider the matter and take on a little liquor during the holidays as wesll as other members.

Ollie Jones (or a man who went by this name) went off on the last day of December, telling his wife, to whom he had just been wedded three months, that he was going to White county with a young man named Frank Weaver, and would be back the next day, but he has not returned yet and is not expected to. This is the result of a runaway match—a girl leaving her home contrary to her parents wishes and marrying a stranger. This certainly should be a warning to all girls talking to men they know nothing about. We hope that the devil has arrangements made to put on extra heat on all men when they reach there who have been guilty of winning the affections of young girls and deserting them in this manner. And we think a minister who marries a runaway couple where the man is not known to him or any one else in the country, should be tarred and feathered and put on a race track and made to move out after a lighted match has been applied properly. Maybe then by the time one make the first round they will not be so keen to do a thing that creates so much trouble.

J. W. Adams, the president of the Consolidated Co., returned to Dahlonega Tuesday.

Another official notice has been issued by the Mayor of Dahlonega and posted up notifying the citizens that all wood, buggies, wagons and chicken coops must be moved from the streets.

Henry Whitaker, col., was fined three dollars and cost this week for selling liquor. He didn't have the money and in order to keep from working on the streets gave a mortgage on one of Noah's old mules worth about two dollars and a half.

Last Wednesday morning an alarm of fire was given in Dahlonega by some of the students ringing the Baptist church bell, and it was not long before the fire was located at the old Kilgo house opposite Dr. Howards, occupied by Rev. J. E. Blackburn and several other families, and one or two hundred men were on hand, some carrying out household goods, others bringing buckets of water and some using axes and dashing water on the fire between the ceiling of a closet where some papers had likely been set by rats carrying matches to their nests. The fire was soon extinguished with but little damage.

Charlie Griffin, who had been boarding at Miss Georgia Barnes, went off the other day owing her $1.03, besides having $1.75 belonging to Earnest Hood which had been put in his hands for safe keeping who had been locked up and a case made against him for imbibing too freely in mountain dew. The proprietress swore out a warrant against Griffin and placed it in the marshal's hands who notified the officials at Gainesville to arrest him when he arrived there, which they did and assistant marshal Coffee went down and brought him back, when he paid Hood his mony and was fined the usual amount, and is now piddling about on the streets, which is to continue nine days from the time he commenced.

R. J. Allen, the youngest son of Capt. and Mrs. Joseph Allen, of Dahlonega, died last Monday morning after a very brief illness, at the age of seventeen. His death was unexpected by his parents and a surprise to all our citizens as he had only been complaining some two or three days and caused no alarm until he went to bed a day or so before he died—rapidly grew worse and worse, having convulsions, until relieved of all suffering by the cold hand of death, caused by either a spinal affection or brain trouble. It is certainly very sad for one to be taken from his parents so suddenly like this son who had always enjoyed good health up to a few days before his death. The people of the entire community sympathise with the parents in the loss of their much loved boy. His remains were interred in Mt. Hope cemetary Tuesday afternoon in the presence of many people.

A drummer by the name of C. C. Prevast, representing Pratts Food Co., Philadelphia, Pa., while on a protracted spree went in to Dr. Jones' drug store last Sunday and commenced beating on the show case with his hands like it was a drum. The Doctor stopped the wild man before he bursted the glass and shoved him out of the store and to his hotel in a rapid manner, where he remained until he sobered up and took his departure the following Tuesday. He was one of the most kind and liberal hearted drummers to females and blind tiger keepers that has ever visited this section. His spree is said to have begun in Gainesville and on his way to Dahlonega the driver said that he made Mrs. Tessie Owens a gift of $50—all the money he had—who handed him back $10 saying that it was more than she needed. When he arrived in Dahlonega he was drunk and continued so as long as his $10 lasted, being supplied with liquor by a negro who belongs to the church.

Special cash bargains will be offered by Jan. 15th at

ANDERSON & JONES.

Mr. Prater, who formerly lived at Price, Ga., now occupies his recently purchased residence in Dahlonega. Mr. Prater will likely go into business here later on.

There is going to be hot times in Georgia this year. The political pot will soon be steamed up and everything will be jolly—the negro will again be called mister and invited to sip liquor from the same bottle with the white man. In order to keep posted everyone not already a subscriber to the NUGGET should send in at once and secure it and one or the other of the Atlanta papers—Weekly Constitution or Semi-Weekly Journal.

Last Saturday night the Decora Palaestra Society gave a public debate at the college. Prof. O. Palmour acted as judge for the occasion. W. M. Smith delivered the salutatory address on the subject "Vanity Fair." The subject of the debate was, "Resolved, That the Graeco-Roman literature has had more influence upon civilization than the Anglo-Saxon." The affirmative side of the question was represented by J. W. West and S. A. Harris; the negative by C. L. Harris and A. W. Cain. After a close discussion for more than an hour in length the judge rendered his decision in favor of the negative.

Some one in Dahlonega is selling intoxicating bitters which are much more injurious to the happiness of a mans family and his pocket book than the moonshine liquor. It is called Peruna, but is said to be nothing except the sorriest kind of intoxicants sold at a big profit which has a worse effect on a man than any of the meanest popskull that is brought down from the mountains. These intoxicating bitters are generally sold by parties who are always in favor of finding a true bill against some poor man or woman for selling a little liquor in order to supply his or her home with the necessaries of life. It is not right. Let the city authorities make all stand up to the rack alike.

Charlie Meaders, who was killed in Camden, S. C., while superintending the construction of a railroad bridge on last Friday was buried in Mt. Hope cemetery at Dahlonega on Monday the 8th inst., by the side of his father who passed to the world beyond only a few months ago. The deceased was aged about twenty-seven years. No better hearted boy was ever raised in Dahlonega and we truly regret that his breath has been cut off while he was just in the prime of life. We deeply sympathize with his mother and other relatives. The following certificate on his original coffin or box signed by Dr. W. J. Dum at Camden, S. C., explains his sudden death: "This is the remains of Mr. Charlie Meaders who died from wound on head by falling timber." Charlie was standing on a trestle when he fell off and a stick of timber struck his head which caused his death shortly afters wards.

If what we learned the other day from a gentleman who had just visited Union county is true the sheriff of that county now doubtless favors the stock law. It is said that a warrant was placed in his hands against a man out in the country charged with stealing hogs. The officer went out and made the arrest who, on in his way home got beastly drunk, so said. The prisoner after trying to get the officer to his destination in safety failed and went off and left him. Some time afterwards some parties came along and found that the man had dropped out of the buggy, vomited all over his clothing and the hogs were pulling the officer to first one side of the road and then the other. Had the temperance bill before the legislature "not been against the principles of democracy," as believed to be by Senator Underwood, and become a law, this officer might have been saved from all this embarrassment.

An old Violin.

EDITOR SOUTHERN WORLD:—

I have seen quite a lot of late about old violins, and I wish to say that Mr. A. J. Taylor, of Atlanta, is the possessor of perhaps the oldest violin in the United States, one of only nine known to be in existence. It was built in 1516 by Gaspard Diuffapuggar, who was born in Welch, Tarrell, in 1467. It is said that these old instruments are valued from $4,000 to $6,000. The nine that are known are owned in the following places: Three are owned in Aixla Chappd, one in Boulogne, one in London, one in St. Petersburg, one in Florida and two in Atlanta, one of which is the property of A. J. Taylor. From records connected with this old violin it is found that it once belonged to a Frenchman connected with John Robinson's Circus, of long ago, who had in his possession records showing it was repaired and brought from France in 1712 by his ancestors. It also has the maker's name in it and the date 1712, showing when it was repaired. Gaspard Diuffapuggar was called to the Court of France by the first King of France in 1510. Four years later he built this violin, which makes it 384 years old. It is quality and value of tone to any of like nature in the world.

Mr. Taylor's address is Southern Railway Shop's Atlanta, Ga., at which place he works. He has owned this old violin for twenty years and is very proud of it and takes great pleasure in showing it to friends. He has had many stranger to call to see it and they all view it with great curiosity.

A. V. O'NEAL.

Blue Ridge, Ga.

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give releif within a very short time. The sales are growing, and all who try it are pleased with its prompt action.–South Chicago Daily Calumet. For sale by F. W. Hall Mdse Co.

Congressman Lewis has introduced a bill in congress to repeal the war stamp act, which we hope he will succede in.

That Cough Hangs On

You have used all sorts of cough remedies but it does not yield; it is too deep seated. It may wear itself out in time, but it is more liable to produce la grippe, pneumonia or a serious throat affection. You need something that will give you strength and build up the body.

SCOTT'S EMULSION

will do this when everything else fails. There is no doubt about it. It nourishes, strengthens, builds up and makes the body strong and healthy, not only to throw off this hard cough, but to fortify the system against further attacks. If you are run down or emaciated you should certainly take this nourishing food medicine.

50c. and $1.00, all druggists.
SCOTT & BOWNE, Chemists, New York.

Character.

It is only indestructible material in destiny's fierce crucible. Character itself is a rank and estate. Character stands in majesty unawed and unmoved before men and devils. Character stands confident and trustful in the presence of God himself. Genius, so often landed, fails frequently of its aim for want of character to support it. The men upon whom society leans are the men of proved honor, recitude and consistency, whose sterling character gives pledge of faithfulness to every trust committed to them. Thackery says: "Nature has written a letter of creadit upon some men's faces which is honored wherever presented." There is a 'promise to pay' in their faces that inspires confidence, and you prefer it to another man's endorsement. As the rivulet scoops out the valley, moulds the hillside and carves the mountain's face, so the stream of thought sculptures the soul into grace, mellows the heart to tenderness and love, and these are mirrored in the countenance." If you would, therefore, be noble and wear the visage of the great, you must lead pure lives, and think the thoughts of greatness. "As a man thinketh in his heart, so is he."

I want to let the people who suffer from rheumatism and sciatica know that Chamberlain's Pain Balm relived me after a number of other medicines and a doctor had faiied. It is the best liniment I have ever known of.—J. A. Dodgen, Alpharetta, Ga. Thousands have been cured of rheumrtism by this remedy. One application relieves the pain. For sale by F. W. Hall Mdse Co.

Our Filipino war news now reports that "20 per cent." of So-and-so's command was lost. This is the proper commercial language of "expansion," but it does not hide the fact that a lot of brave American boys are never coming home.—N. Y. World.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by F. W. Hall Mdse Co.

John A. Smiths warehouse in Gainesville was burned down on Wednesday night last at about 3 o'clock and 325 bales of cotten destroyed. It is supposed that a spark from the train set the building.

P. W. Forester, of Hickery Flat, killed a hog the other day which weighed 644 lbs.

WOMANS TRIALS.

Many women suffer great pain at monthly periods and believe it natural. Others realize the danger but hesitate to secure treatment on account of humiliating local examinations. Nature intended the "monthly periods" to be painless and regular. Unusual pain and sickness indicate serious derangements which should have prompt attention, or they rapidly grow worse. Local examinations are not necessary since the discovery of

PLANTERS FEMALE REGULATOR

It cures all Female Diseases by properly strengthening and regulating the organs. This stops all the pain.

This remedy is a vegetable compound, and is the result of years of experience. It is carefully prepared in our own labratories by skilled chemists and is indorsed by leading physicians.

Sold by all druggists or sent post paid for $1. A box of "Monthly" Regulating Pills with each bottle.

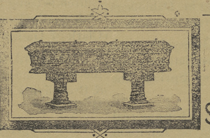

Mrs. A. L. FORD, Wesson, Miss., writes: "By using two bottles of Planters Female Regulator, I have been cured of Nervous Debility brought about by the birth of my last child.

FREE to any address, Book on the Home Treatment of Female Diseases. A sample box of "Monthly" Regulating Pills sent for 10 cents in stamps. Address, New Spencer Medicine Co., Chattanooga, Tennessee.

Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Twice-a-Week Journal for

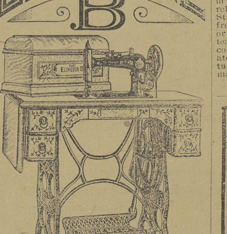

$1.50.

Here you get the news of the world and all your local news while it is fresh, paying very little more than one paper costs. Either paper is well worth $1.00, but by special arrangement we are enabled to put in both of them, giving three papers a week for this low price. You cannot equal this anywhere else, and this combination is the best premium for those who want a state paper and a home paper. Take these and you will keep up with the times.

Besides general news, the Twice-a-Week Journal has much agricultural matter and other articles of special interest to farmers. It has regular contributions by Sam Jones, Mrs. W. H. Felton, John Temple Graves, Hon. C. H. Jordan and other distinguished writers.

Call at this office and leave your subscriptions for both papers. You can get a sample copy of either paper here on application.

A Woman Only Knows

what suffering from falling of the womb, whites, painful or irregular menses, or any disease of the distinctly feminine organs is. A man may sympathize or pity but he can not know the agonies she goes through—the terrible suffering, so patiently borne, which robs her of beauty, hope and happiness. Yet this suffering really is needless.

McELREE'S
Wine of Cardui

will banish it. This medicine cures all "female diseases" quickly and permanently. It does away with humiliating physical examinations. The treatment may be taken at home. There is not continual expense and trouble. The sufferer is cured and *stays cured.*

Wine of Cardui is becoming the leading remedy for all troubles of this class. It costs but $1 from any druggist.

For advice in cases requiring special directions, address, the "Ladies Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

MRS. C. J. WEST, Nashville, Tenn., writes:—"This wonderful medicine ought to be in every house where there are girls and women."

Hall's Family Pills are the best.

The following is an up-to-date marriage ceremony: "Young woman will you promise to take this helpless young goslin you hold by the hand and see that he wants for nothing? Will you guarantee to stand by him when he is sick, provide him with a good suit of clothes twice a year, and always see that his supply of stove wood is drp and convenient until the divorce courts shall intervene? If you feel like undertaking a little matter like that, deposit $20 with me as a guarantee that he will be taken care of, and take the goslin and light out! Amen."

A Russian Love Story.

Let all the subalterns take warning by the misadventure which befell a young Russian lieutenant, who loved a young woman, the daughter of a dyer, not insensible to the assiduous court which the young official paid her. But the father proposed for a son-in-law one of his own class, forbade his daughter having anything to do with the young man, and warned him off the premises, says the Army and Navy Journal. But the brave and passionate soldier took no heed of prohibition, though had he been aware of the rod the dyer had in pickle for him he might have hesitated The gay young militaire came, then to visit his sweetheart, when the dyer, who was lying, in ambuse, rushed on him, seized him by the shoulders and pitched him headlong into a dyeing vat. The wretched fellow got out as best he could, but covered from head to foot in a coating of deepest crimson. He ran to a well to wash but the lac was sound, and declined to part. The lieutenant went home, spent hours in soaping himself, brushing himself and getting himself scrubbed by his orderly. But all to no purpose. The carmine did not pale. In despair he swallowed his pride and took counsel of the author of his condition. "I can advise no remedy," said the dyer, "that lac was invented by me, and I flatter myself is immovable." He then went to the chemist, who, under the application of certain various metamorphoses, not, however, of an altogether satisfactory character. Although the officer has not recovered his original color, he is progressing. He has already passed from crimson to violet and from violet to green. So like the statue of Liebig, it is hoped, after ringing the changes of the rainbow, he will revert to his natural complexion. With that fickleness and gratitude which characterized the fair sex, his well-beloved far from sympathizing with her lover in his misfortune only laugh at him.

A dispatch dated Philadelphia, Dec. 20, says. After an operation resulting in the loss of his left arm, shoulder blade, collar bone and a portion of his ribs, Alfred Taylor is able to perform his duties in the Pennsylvania Hospital. From the point of the jaw to the hip bone the line of Taylor's body on the left side is almost straight. Taylor is a victim of disease of the bone known as osteosarcoma. He was a sailor on a British schooner, and arrived here with his arm and side terribly enlarged and suffering intense pain. Little hope was given the man when he presented himself at the hospital, but the operation was resorted to as a possible means of saving his life. Dr. Robere Le Conte performed the operation, assisted by Drs. Hart and Stewart. Within a week Taylor had improved sufficiently to walk about, and his recovery was rapid.

More than 7,900 American exhibitors have already been secured for the Paris exposition.

Oxen as Artillery Trains.

Some of our troops in the Philippines are not having so bad a time as others. On the island of Panay, where there is no fighting, there is little to do, and the ingenuity of the men is often taxed severely to provide amusement, as the time goes slowly. A letter received recently at the War Department describes a remarkable team, which the Sixth Artillery has rigged up from native oxen. These animals are not the common Carabas, nor are they our American stock, but are known as running oxen. They can be hitched up in harness to carts, and make nearly if not quite as good speed as the little Philippine horses. The artillerymen have harnessed four and broken them to all the manœuvers, as if they were horses, as they are light and quick-footed and go at a dead trot. The men profess to like to ride them, and say they are easily tamed. They rein them with a halter provided with an attachment to the nose ring. The four animals, according to the account given, "snatch a gun around" at a lively gait, and with a precission of movement that excites admiring comment.—Philadelphia Ledger.

Reflection of a Bachelor.

A man blushes for a woman a lot oftener than she blushes at him.

When a woman has nothing else to wish for she begins to wish that her husband was different.

The trouble with love is that you always have trouble with it.

If woman had pockets they would be a lot more likely to keep their hands where they belong.

As soon as a man gets so he can afford to keep a hired girl his wife begins to go visiting and talk about the trouble she has with the servants.

The first thing Eve said when they got outside of the Garden of Eden was, probably, that no matter how nice it was she always did hate to be cooped up in there.

It is really disgusting to hear a woman with a housefull of hungry dirty children, and a loafing husband, bragging on what they would do if they were able.

No children are as pretty and smart to a woman as her own no matter how filthy and foultongued they are.

When a man stands up to get married he looks to the woman like a hero, but he looks to the men like a curley-haired bull at a fair with a pink ribbon tied to his horns. —Ex.

The probabilities are that much of the death bed eloquence that has gone into history, both religious and secular, is more or less imaginary. Such, however, is said to be not the case with regards to the last words of the late Dwight L. Moody. A Boston stenographer who took the evidence from Mr. Moody's son, says the very last words of the evangelists, exactly stated, were: "Earth recedes and heaven opens before me. If this is death, there is nothing awful here. It is sweet. This is bliss. Do not call me back. God is calling me. I must go. There is no valley here. It is all beautiful."

G. H. McGUIRE,

THE NUGGET.

DAHLONEGA, JAN. 19, 1900.

Entered at the Dahlonega, Ga. P. O as Second Class Matter.

John B. Hardeman was recently re-elected mayor of Harmony Grove, is said to be the youngest mayor in the state.

Dr. H. L. Howard, who resides in Bibb county, seems to be the boss turnip raiser of the season. Five of his turnips recently exhibited weighed 46 pounds, the largest weighing a few ounces over ten pounds.

Just before a negro was hanged in Seguin, Texas, last Friday for murder he was given a drink of whisky and wine and he passed away happy, requesting that they tell his grandfather that he would meet him in heaven.

Millton Stewart, near New Haven, Conn., imagines he is another Noah, and is building an ark on the top of West Rock. He does not say when his second flood is coming but he says it is coming, and he is preparing for it.

Ex-President Cleveland, with a party of friends are now traveling about from place to place in a special car duck hunting and fishing, causing some of the newspapers to contain long articles and the editors almost go wild.

The Constitution states that the amount appropriated for the payment of widows in Georgia is estimated to be at least 12,500 in excess of the amount needed for the year. This class is the only one that has so far shown any decrease.

It has been decided to nominate solicitors and judges for the various circuits by the people of each circuit at a uniform primary and not by a convention composed of delegates from the different counties of the circuit.

The war department has made public a statement showing that there are 200,000 storm sufferers in the Island of Porto Rico, dependent upon charity, who must continue to look to America for means of subsistence until the banana crop ripens.

Charles T. Jerkes, who has amassed $15,000,000 in fifteen years, is reported to have declared before a recent meeting of commercial teachers in Chicago that "great wealth does not bring happiness." No country editor will ever know how to sympathize with him.

Detective Looney, after many years service in Atlanta, handed in his resignation last week on account of charges being preferred against him for neglect of duty. This is an evident fact that it won't do to keep a man in office too long. If so he will naturally become careless and think that the office can't be run without him.

Latest official advises from India says that the situation there grows darker every week. Three million are working on government relief works. The sale of children by starving parents is becoming common. Families are breaking up each member for himself, in search of food. Abandoned children are found with frequency. It is a famine of water as well as food. Cattle are dying by thousands and no rain is now expected until June.

That man who does not take his local newspaper is indifferent to the only agency which can give his community a public voice. No matter what other claimants may be in the field, there is not one which can have a place ahead of local newspapers. If the paper is weak, it is because the people make it so by non-support. One of the best services which the business men of the towns of Georgia could undertake would be to make an inquiry into the standing of their local newspapers, with the idea of supplying any improvements which might be needed. The investment would repay itself abundantly within the year.—Atlanta Constitution.

FEAST ON HUMAN FLESH.

AWFUL STORY OF SLAUGHTER OF NATIVES—BAKED AND EATEN.

A special to The New York Times from Nashville, Tenn., says:

The Southern Presbyterian board of missions in this city received letters today from the Rev. L. C. Vass and the Rev. H. P. Hawkins, missionaries of the church stationed at Luebo, Congo Free State, Africa, giving accounts of the burning of 14 villages and the killing of 90 or more natives by state troops. The report that some of the victims were eaten by cannibals add that the bodies of all who were slain were mutilated, their heads having been cut off.

Mr. Vass was formely of Newbern, N. C., and has been engaged in mission work at Luobo since February 18, 1899. Mr. Hawkins was formerly of Vicksburg, Miss. Mr. Vass stated that tidings of raiding by the Zappo Zaps in the Berna Kamby county having reached them, and the work of the missionaries being threatened, the Rev. W. H. Shepdard was sent to make an investigation. He went to the Zappo Zaps' camp and found that 14 villages had been destroyed by fire and plundered. He saw 47 bodies lying round the camp. From three bodies the flesh had been carved and eaten.

The chief said that 80 or 90 had been killed and five persons eaten by his people. Mr. Shedpard saw 81 right hands cut off and drying over a slow fire, in order to be afterwards taken back to the state officers. Sixty women prisoners were confined in a pen and 16 men had already been sent away prisoners.

It is said the raid was ordered because the people could not pay the exorbitant tribute demanded by the state.

The missionaries states that they reported the matter to the proper officials and demanded the withdrawal of the troops, and that the chief instituted a counter prosecution on account of the charges made. The missionaries further say that the Zappo Zaps are a tribe kept by the state for the protection. They are sent out to collect rubber, ivory, slaves and goafs as tribute from the people, and can then plunder, burn and kill for their own amusement and gain.

The missionaries say they are collecting evidence about the massacre, and will send it to Bomer and to Europe.

Mr. Vass says:

"The whole country is plagued, and not a village left standing. The people are in the bush. To night in a radius of about 75 miles there are possibly over 50,000 peoples sleeping in the bush, unsheltered, and we are in the midst of a rainy season. The state is a terror to every one."

Indigent Pension Roll Increased

The Atlanta Constitution of a recent date has this to say in reference to Indigent pensionors: Before retiring from office in December, ex-Commissioner Johnson estimated that for the present year the sum appropriated by the legislature to the indigent class of pensioners would fall at least $30,000 short of the amount needed. At the last session the legislature added $30,000 to the $238,000 appropriated at the first session and every indication points to the fact that the full amount will have to be used. For the last few years the number of indigents has increased rapidly and the increase will continue until the old veterans reach that age when the death rate among them will be heavy. The increase is expected, as a matter of fact, for the next two or three years, and after that a gradual decline is expected. The appropriation for indigents in 1899 was $237,000, showing an increase in appropriation for this year over last of $31,000.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

50c. and $1.00, all druggists.
SCOTT & BOWNE, Chemists, New York.

Georgia's Public Schools.

Hon. G. R. Glenn of Atlanta, superintendent of public instruction of Georgia, at the Southern Educational association's meeting in Memphis, said of Georgia's county schools:

"We are pushing manual training to a large extent, even in the most rural school districts of our state. We are also building more school houses in the country, and running graded schools there in order to stop the great influx to the cities, which to a certain extent has been accomplished. The state gives terms of five months everywhere, but it is optional with the people to have ten months terms by voting a tax levy on themselves for maintaining them. We are also teaching the children the necessity of manufacturing our raw materials, such as cotton and iron, into finished products at home, and giving them the advantage of the state schools in learning the different process employed in these arts."

The increase use of cigaretts is said to be responsible for the spreading of consumption and cancer. Prof. Boltwood, of the Evanston High School, said in a recent address: "The use of cigaretts dulls the powers of perception, weakens the faculties, and finally undetermines their bodily strength also. A physician told me lately that he had this year attended twelve Evanston boys under 16 years of age who were afflicted with heart trouble, and that every case was due to the excessive use of these white coffin nails, as they have been called. There are also three times as many high school pupils who use tobacco now, as there were a few years ago."—Ram's Horn.

It it said that the fee allowed by a Chicago judge to the executors of the estate of the late George M. Pullman is the largest ever awarded in this country. Each executor receives $250,000 for his services in managing and closing up the estate. It is argued in defense of this immense compensation that the estate was so vast and involved such diverse interest that great skill and executive ability were required to manage it. The court complimented the executors very highly on the manner in which they had discharged their obligations, and said that their fee, though very large was not more than they had fairly earned.

The buzzards in Columbus have become such a nuisance that the police have been instructed to kill them, and hundreds have been slain within the past few days.

William Jackson, the famous government scout, and the courier who brought in the first news of the Custer massacre, died at Buckfoot, Montana, January 9th.

The army now in the Philippines aggregates 62,500 men, of which 31,000 are volunteers. With the arrival of the Grant the entire volunteer strength of 34,000 men will be in the Philippines.

The progressive citizens of Gainesville always extend a hearty welcome to foreign capital. A few more good enterprises will help the town wonderfully, and The Cracker hopes to see them established during the present year, says the Cracker. But it seems that they do not want a railroad from there to Dahlonega.

It turns out now that the negro is liked better down about Madison than it was supposed. No longer than last week W. A. Wilson, an emigrant agent, who during the past six weeks has sent off 2,500 negroes in that section to Arkansas and Mississippi had to be jailed as a measure of safety to keep the farmers from mobbing him.

Candidates for county officers have already commenced electioneering. One "talked" to us the other day but we don't know any one unless they announce their names in the NUGGET. A man that is two stingy to announce his name cannot expect to make a good officer even if he was elected. Remember that no man has been elected in this county for years who didn't announce.

We notice that the political pot has already commenced boiling in some portions of Georgia. But little has been said up here yet in politics, except we have heard the names of Col. Lilly and ex sheriff John Brookshier mentioned by some of their friends for senatorial and legislative honors—the former for the senate and the latter for the legislature, but we do not know whether either will consent to run or not.

Sure Cure for Colds

When the children get their feet wet and take cold give them a hot foot bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and put them to bed. The chances are they will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared.

Old coughs are also cured; we mean the coughs of bronchitis, weak throats and irritable lungs. Even the hard coughs of consumption are always made easy and frequently cured by the continued use of

Ayer's Cherry Pectoral

Every doctor knows that wild cherry bark is the best remedy known to medical science for soothing and healing inflamed throats and lungs.

Put one of

Dr. Ayer's Cherry Pectoral Plasters

over your lungs

The Best Medical Advice Free!

We now have some of the most eminent physicians in the United States. Unusual opportunities and long experience eminently fit them for giving you medical advice. Write freely all the particulars in your case.

Address, Dr. J. C. AYER, Lowell, Mass.

Georgia, Lumpkin County

Notice is hereby given that David N. Jarrard has applied to the Court of Ordinary of Lumpkin county for leave to sell land belonging to the estate of John G. Jarrard, for the payment of debts, and for the purpose of distribution. Said application will be heard at the regular term of the Court of Ordinary for said county to be held on the first Monday in February, 1900.

W. H. C. TATE, Ordinary.

TO RENT OR SELL, the latter preferred, a 11 room dwelling and lot in Dahlonega in about 100 yards of public square, with good well water and a splendid barn. Terms reasonable. Apply to or address

E. W. STRICKLAND,
Dahlonega, Ga.

TOWN and other Property

FOR SALE. Town lots in Dahlonega on Chestatee street Nos. 108, 122 and 123 on Tan Yard Branch. And the following lots of land in the 11th district of Lumpkin county: Nos. 260, 479, 480, 481, 527, 602, 812, 860, 862, 867.

Call or address NUGGET office.

THE NUGGET.

DAHLONEGA, GA., JAN. 19 1900.

Heckins celebrated coffee in lb. cans at Copelands. Try it!

The Consolidated Co. now has an up to date store house well filled with choice goods.

Capt. H. D. Ingersoll held the mayors reins this week while Col. Price went to Atlanta.

First quality London layer raisens, also cocoanuts, oranges, nuts etc going at a great reduction in prices at Copelands.

J. N. DuPree, one of the clerks in the Hall Commissary, has been off on a visit for some days for a little recreation and rest.

C. W. Satterfield, the general manerger of the Consolidated store will put up a nice residence as soon as he can purchase a lot that suits him.

Miss Dora, daughter of Thomas Ward, was wedded to Mr. Memory Sain in Hightower district last Friday night. Another runway match.

W. B. Woodward had a kind of a reception at his house on Thursday of last week in honor of a pretty little girl which made its first appearance at that time.

Frequently we are asked about the proposed railroad from here to Gainesville. Wait until spring opens and we will be able to give you something more definite about it.

Judge Tate has a beautiful location and is going to have one of the prettiest and largest residences and business houses in town. A good force of hands are at work every day on it which will be completed before a great while.

Big line of clothing just received at Anderson & Jones. Child suits from $1.25 to $2.25. Boys suits from $1.25 to $3.00. Youths suits from $2.50, etc. Mens suits from $2.50 to $15.00. The natives are astonished at their low prices.

The other day one of Martin's Fords new bailiffs rode up to W. C. Bryson's house and enquired if the gentleman was at home. The officer was informed by Mrs. Bryson that her husband was away, "I have a grand jury summons for him," remarked the bailiff. "He is not on the list," replied Mrs. Bryson. "Oh, this is a grand jury summons for him to attend a justices court at Martins Ford," said the officer.

W. T. Bryson came near losing his life last Friday while crossing the Chestatee river in a batteau. The river was up and Mr. Bryson was knocked out by a log striking the boat. He was unable to swim on account of having on his shoes and clothing and the water was too deep and swift for him to wade. He got strangled and was going down the second time when fortunately he got hold of the boat and reached the bank in safety.

Rev. A. W. Lamar, D. D., of Philadelphia, Pa., will deliver the next lecture of the association course at the College chapel, Friday evening, Jan. 26. Dr. Lamar is a Georgian of the famous Lamar family, and a preacher and lecturer of national reputation. The subject, "The Husband and wife," is an interesting one to all, and Dr. Lamar has delivered it recently to the satisfaction and delight of great audiences in Atlanta, Philadelphia and other large cities.

Sunday night after "Turkey" Bill Postell married and brought his wife home his son Harris, Joe and Gordon Walker decided that they would go out and serenade the happy old man and the result was they were all three arrested and landed in jail until Monday morning when they were brought out and tried before Squire Worley charged with rocking the old fellows house, but the evidence was not sufficient for the justice to bind them and they were discharged. The fact is the old man was so happy and full of liquor that night that he couldn't tell what the boys did do.

You can buy a hat at Anderson & Jones at wholesale.

Sweet Pototoes, onions, Turnips, cabbage, dried apples, white beans, pickle beans, butter, eggs, etc. at Copelands.

Mr. Sitton, of Dawsonville, came up last Saturday and spent Sunday with his sister, Mrs. Lina Boyd, in company with his wife.

Last Monday was payday and the Consolidated Co. paid out several thousand dollars to the large number of hands in its employ.

Our new line of men's, women's and children's shoes just received. Give us a call. We can suit you, and save you money. New styles and new prices, and that the lowest. E. S. Copeland.

There are more people with bad colds in Dahlonega now than we ever knew before. For some time the people have been coughing so at church that it is a hard matter to hear what the preacher says.

Col. Charters and Mayor Price left last Sunday for Gainesville where the Colonel went to attend Hall Superior Court as solicitor general, while mayor Price went on to attend to some business in Atlanta.

The happenings in Dahlonega are being chronicled by correspondents in the Atlanta Constitution and Journal, Macon Telegraph and Savannah Morning News. But if you want to get all the news in a nut shell send for the NUGGET.

Enquiries are frequently being made by non residents desiring to know if they can get any vacant houses in Dahlonega. Our reply is that they cannot. Persons desiring to become citizens of our city will have to purchase lots and build.

The city marshal informs us that he thinks that he will have 300 street hands this year. This will enable him to secure $900 if the last rate is not changed, and ought to put our streets in good condition for the next twelve months.

Mr. Bloomer, who came in last week, represents the Toledo News and is accompanird by his wife, who expect to remain in Dahlonega for some time. Mr. Bloomer owns stock in the Dahlonega Consolidated and is perfectly delighted with the various works of the Company. Quite likely he will have many interesting things to tell the readers of the News. The gentleman says that Dahlonega is just beginning and thinks that her population will more than double during the next twelve months.

Your attention is directed to the card of Dr. J. G. Grove on the first page of this issue, who is prepared to do all kinds of dental work at the most reasonable prices. The Doctor came here some time in September from the north with a view of becoming a citizen provided that he could get a sufficient amount of patronage to justify him, and it is with pleasure for us to state that he has met with that success, and some time ago made up his mind to permanently locate in in our thriving city, and asks a continuation of the liberal patronage in the future that he has received in the past.

At a meeting of the city council last week, which was convened to act upon the granting of a permit to M. J. Williams to put up a steam grist mill on the lot below the rock wall on College street, was refused, the council standing three for and three against. Under the old charter the mayor could have cast the deciding vote, but the present one gives him no such right. When any matter carries which the mayor dislikes he can veto it. Capt. Hall, through his attorney, offered to pay the city $85 for that part of Waters street leading to the old tan yard which he now has enclosed, but every member voted against it and this street is to be opened out on down to the dormitory, and later on still farther as there are many beautiful building sites clear on up to the foot of Findley Ridge.

A farmer of Fannin county was here last Wednesday with a load of leaf tobacco.

Biggest bargains in town are found at Anderson & Jones cash and barter store.

If you wish to know who draw state pensions in Lumpkin county look at the list on our first page.

Mrs. Lina Boyd has moved from Dahlonega to Atlanta for the purpose of making that city her future home.

J. G. Rosenthall, one of the directors of the Dahlonega Consolidated Co., after spending a few weeks at his home in the north returned to Dahlonega latter part of last week.

Infants undervests 15 and 25; nice all wool sweaters 90; we save you 10 to 65 per cent on shoes; fast black umbrellas 55 to $1.37; coffee mills 17 to 32.

B. R. MEADERS & SONS.

The little four months old child of Ben Moore died last Friday morning between two and three o'clock of something like whooping cough. The parents have our sympathy in the loss of their little one.

The farmer is getting a better price for his fodder in Dahlonega now than he has been able to procure at this season of the year for many years—being $1.50 per hundred. In fact all farm products are bringing fair prices.

The marshal has a stopper to a jug which contained some of that liquor made here some time ago out of chemicals. The stuff turned it right blue. If it is indelible there are several about here with beautiful stomachs the color of Indigo.

Blockade liquor is considerably scarcer now in Dahlonega than it was before the charter was amendmended. Then it was dealt out on our streets sometimes and the marshal had no authority to arrest them. Now it is different and he has pulled several.

It is reported here that "Bullie" Strickland and John Lackey had a fight the other day out in the country during which the former bit one of the latters ears off. Strickland is some seventy or eighty years old without a single tooth in his head making it a very mysterious affair.

The oldest man in Lumpkin county is "Uncle" Dan Hyden who resides in the lower portion of the county. If he lives to see May he will be 101 years old. The old gentleman doesn't look to be over 60 years of age and can sit and talk interestingly of the days of long ago. He has been married three times.

Remember that the NUGGET office has been removed from the Masonic building to the corner of Choice and Water streets where you can get letter heads printed at from $1.50 on up to $2.25 per thousand, cash—according to size and quality of paper, and envelopes furnished and printed cheaper than you can purchase the blank ones in the city.

Calvin Perry, who resides out in the western part of the county, came to town last Saturday with a load of fodder. In that load of fodder was a jug well filled with pure mountain corn juice. After arriving he sold his fodder and placed his jug away in the old Lawrence stable, to which he visited frequently. Pretty soon afterwards he got full mellow, when an accident insurance man approached him and wanted him to make an investment. Perry was too happy then to think of taking a policy, and the thoughts of being disturbed made him mad and he got to cursing the insurance agent. The next thing he was in the hands of the marshal and on his way to the mayors office. The mayor fined the defendant one and cost. Perry couldn't raise but two dollars and mayor Price remitted his cost and the man went away with a smile on his face as big as a broad ax, but when he went back to his jug to recruit up, lo and behold it was gone and his happiness soon turned to sorrow.

The Bostwick Hall will soon be completed.

W. S. Huff went down to Gainesville this week on legal business.

WANTED.—Young cattle. Apply to F. M. WILLIAMS.

Mayor Price says that he expects to give all dealers in intoxicating bitters here his official notice at an early day.

Nice bound slates 5 to 14; box paper 5 to 25; tablets 1 to 10; lead pencils 15 for 5c to 4c each. red and black ink 3c at B. R. Meaders & Sons.

Why don't some one that has the money put up some buildings to rent? It looks to us like it would pay as two small room houses are renting for $5.50 per month.

Before the summer season Col. Farrow will have a telephone line completed from Dahlonega to Porter Springs. He has already purchased the wire and contracted for a portion of the post.

James Bearden, residing in the western portion of the county, owns one of the oldest coffee mills no doubt in the county. It was brought out of the Florida war by Bolen Bearden and is a good mill yet.

At the mayors court the other night Frank Weaver, R. Smith, Flora Henson, and two fellows by the names of Honey and Williams were each fined three and cost. Only half the defendants were present but the marshal had their proxies.

Merchant McKee and Charlie Hunter went out hunting the other day. The dog scared up a bird and Mr. McKee not having his gun loaded called to Charlie to shoot that turkey. Charley banged away without effect and found it be a buzzard.

Hyman L. Richardson, of Gainesville, who lived in Dahlonega thirteen years ago, was here this week on business for Uncle Sam, just as clever and jolly as ever. Mr. Richardson has many warm friends in this section who are always glad to meet him.

Everywhere else in the United States an outgoing city or town council makes a report of its acts and doings except in Dahlonega. Last year we are told by the mayor that about $1,900 passed through its hands but no one knows where it came from or where it went to.

Out of all the dogs in Dahlonega we are told by the city treasurer that he only received $1.00 is cash as dog tax for the year 1899. If the grand jury adopts or recommends the dog tax in Lumpkin county and there is no better showing than this it will be a "slim" affair.

W. H. Duncan, who joined the army a little over three years ago, arrived in Dahlonega a few days ago. When Will's three years expired he didn't want to join any more, especially if he had to stay in Cuba. He left there in September. It is a terrible section and no one will want to volunteer to go there after they hear him tell about the country.

Another one of the old veterans has passed away. Young Grindle, who resided a few miles above Dahlonega, died last Monday. The deceased had been in bad health for a long time, and was drawing a state pension for disabilities received while in the defense of a cause which he believed to be right. He was a good citizen, a kind neighbor and a strict member of the church whose presence will be greatly missed in that community.

Thomas Lemley died in Dahlonega last Sunday afternoon, from injuries received while at work down at the Hand mine on the 27th day of November last. For a while it was thought that he would recover but a few days before his death he grew worse and suffered intense pain until he expired. He was given every attention possible at the expense of the Consolidated Co. but his injuries were too great for him to overcome. His remains were interred in the cemetery at Auraria the following day.

J. M. Brooksher keeps trading. He has now purchased the residence of Prof. B. P. Gaillard.

Why do all our patrons continue their advertisements? Because it pays to advertise in the NUGGET.

W. M. Rice, a former citizen of Dahlonega, was elected as one of the council of Milner last Friday.

Mr. Else Jarrard and Miss Lizzie, daughter of Mr. John Porter, were wedded last Sunday near Porter Springs.

The Consolidated Co. has just received the most complete line of clothing ever brought to Dahlonega and will sell it at a very low profit. Go and inspect them.

A commercial drummer remarked the other day that Dahlonega was the most prosperous place in Georgia without a railroad, and was a head of many having railroad facilities.

Dennis Walker got mad and cursed last Monday because a negro rode his horse off a piece and the marshal put him in the calaboose so he couldn't hurt him. A small fine was the result.

Presiding Elder Cook was here last Sunday and Monday and held the first quarterly conference for this charge. He preached two excellent sermons while here, one Sunday at 11 o'clock and one Sunday night.—Blue Ridge World.

Mr. W. Dan Davis was wedded last Sunday to Miss Alice, daughter of James Higgins. This was another runaway match. The girl went off to the spring to get a bucket of water and the next thing her parents heard she was married.

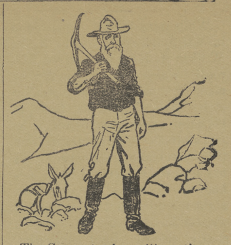

J. Carter, of Gainesville, visited our city last Friday during which time he spoke very complimentary of the NUGGET and subscribed and paid for the same which proves that he meant what he said. Mr. Carter has been visiting our town for the last 21 years. He is the original Carter's Fancy Flour man and everybody knows what that means.

James Davis is still deposit mining on Tan Yard Branch where he has been engaged in working its bed over and over for years, and is making good wages. He works up the gravel in the branch and when it rains more runs in and he repeats his work. This proves that the veins which feed it are very rich and are worth looking after. This will be done later on by the Crown Mountain Gold Mining Co.

"Turkey" Bill Postell wedded last Sunday and appears to be the happiest man on earth. He was married to Mrs. Margaret Satterfield by Rev. W. T. Dowdy, a widow of only thirty summers while he has seen sixty-six. Notwithstanding this the old man steps about as glib as a boy of sweet sixteen. The old fellow aimed to look young too for he spoke to the donist to make him a plate containing all missing teeth but didn't get it done in time.

The city council has agreed to open up and extend the street by Prof. Boyds a quarter of a mile, for which the Professor has given the town two nice lots beyond his residence. Prof. Ansted and others will build over there which will cause it to be one of the most desirable places in town. There is a splendid mineral spring in that locality and as we we have said before, we would not be supprised at a big hotel being erected at this place some time in the near future. We are certainly gratified to see the growth Dahlonega is rapidly making.

At the last meeting of the Dahlonega Temperance Union, the following officers were elected for the ensuing year: President, Prof. Wilber Colyin. 1st Vice Prest. Prof. B. P. Gaillard. 2nd Vice Prest. Col. W. P. Price. 3rd Vice Prest. R. C. Meaders. 4th Vice Prest. Miss May Cartledge. Secretary, Prof. E. B. Vickery. Treasurer, Miss Fannie Gaillard. Chaplain, Rev. W. H. Parks. The committee to prepare program for the next meeting of the Union, Rev. W. H. Parks, Mrs. B. P. Gaillard and Prof. E. B. Vickery.

The Stewart mine still continues to show up well.

The big cave at the Cresent will soon be removed and the mill will be running again in a few days.

Mr. Hargrove writes that he is now purchasing his mill and other machinery for his mine near Auraria.

Dr. Hicks, of Ohio, made an inspection of quite a number of the mines in this county during his trip this week.

A friend from Cleveland writes us that some sixteen or eighteen hands are at work at the Longstreet mine. The mill is about ready and will be put in motion in a few days.

Since Mr. Brooks has been put in charge of the mine down at the Hand he has made several changes that will be beneficial to the Company. He is a practical miner of much experience in all kinds of mining, especially deep work.

Capt. J. W. Woodward and others, have secured options on several hundred acres of mining property from different parties on Mill Creek out in the Western portion of the county and are having some development work done. This is entirely on a new belt but it has already showed up well and proving to be very rich.

J. F. Moore has some men at work on Crown Mountain stripping the old veins and searching for new ones. Mr. Moore went up last Tuesday to do some panning and said that they had found one place which panned at least half a pennyweight to the pan. This mountain is full of valuable ore and one of the best mines in the county.

Quite likely the large shaft down at the Hand has already been commenced. It will be 5x15 in the clear, and sunk seven or eight hundred feet—maybe a thousand. This will prove the value of the veins at a great depth in this county. Later.—It was decided this week to sink another shaft, the last at the Knight. Work to begin at once.

The Singleton mill is running on full time on the same vein discovered some time ago with good results. Only sixteen hands are necessary to do the work, and each month a big clean up is had and a good profit made after counting out all expenses. This kind of gold mining is what makes it interesting to the owners. The mill is an old style and of course a considerable amount of gold is lost. But it is worked by experienced miners which is very important in this as well as all other industries. Often when mines fail to pay it is because those running them do not understand their business.

Our city has been alive with northern gentlemen during the past few days. Some of them are already interested in our mineral resources while the others came to look and will doubtless invest as they all seemed well pleased with the outlook. The Hall House register shows their names and addresses as follows: Ed. Deckman, of Canton, Ohio, C. A. Smith, of Terre Haute, Ind. H. A. Connal, Monroe, Mich. Dr. F. H. Hicks, Fort Wayne, Ind. F. W. Bainbridge, Frank G. Thomson, H. Miller, G. H. Breymann, of Toledo, Ohio. E. C. Recor, of St. Clair, Mich. W. E. Jacobs, Wm. M. Fisher, George Bobb, E. B. McCarter, Judge L. D. Haggerty, S. G. McClure, of Columbus, Ohio. G. Q. Adams, of Chattanooga, Tenn. F. R. Adams, Rev. W. F. Oldhorn, of Delaware, Ohio. Mr. Breymann is the vice president of the Dahlonega Consolidated Co., while several of the others are directors of the same.

May Use Kites for War Signal.

While pursuing his experimests in kite-flying at Bayonne, N. J., William A. Eddy has arriyed at a result which he believes can be made serviceable in war signaling aloft. According to Mr. Eddy, in his latest experiment, in which he sent aloft elictric lights drawn from the surrounding atmosphere, he has achieved a result hitherto unknown. It was at Bayonno one night recently that the experiment was conducted. At 7:40 o'clock a steady electric light emanating from a clear sky and without a battery, friction machine or dynamo, began to glow at the earth, and five minutes later it was paid out upward to a height of about 400 feet, where it remained for half an hour. It was then hauled in for the purpose of changing the spark gap. This sparking apparatus operated by Mr. Eddy was suspended from a steel wire sustained aloft by one kite six feet in diameter, the wire being attached directly to the kite, which carried it upward without other cable or flying line.—Chicago Times-Herald.

Of course every subscriber to a newspaper reaps things in it occasionally that he does not like, but ought to remember that because he has paid the small sum of a year's subscerption he by no means owns the paper or controles its politics, and the editor in accepting the same small amount neyer agreed to guarantee satisfaction. If you see as many things in the paper that please you as you do things that displease you are doing well and should not kick. Editors are human beings and liable to err, just like other mortals.—Ex.

We wonder what the Georgia cur has done to the legislature that they should leave him hung up "between the devil and the deep sea" in this manner. He will have to study the map very closely, as he may be fish on one side the county line and flesh on the other. Altogether, this seems to be a rather unsatisfactory way to deal with a question. Why could the legislature not settle the thing one way or the other and not try to throw the responsibility to other shoulers.—Ex.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chumberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by F. W. Hall Mdse Co.

Teller—My Uncle Grout is a very sarcastic old fellow; painfully so, at times.

Askins—That so?

Teller—Yes. I have just received the following telegram from him: "Dear Nephew—If you want to see your cousin Amos for the last time before he marries, come at once."

"What lesson do we learn from the story of Jonah and the whale?" asked the Sunday school teacher to a small pupil.

"That is's always safest to remain on dry land," replied the little fellow.

Remember that those who borrow their neighbors paper loose their eyesight faster than those who take one themselves. Those borrowing strain their eyes to learn the news first while others who pay for it take their time, provided the borrower dosen't get the paper first.

An exchange tells us that the proper way to keep apples in the winter is to wrap them in old newspapers so as to exclude the air. The newspaper, however, must be one on which the subscription has been paid, otherwise dampness resulting from what is "due" may cause the fruit to spoil.

Now is the time to subscribe for the NUGGET.

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

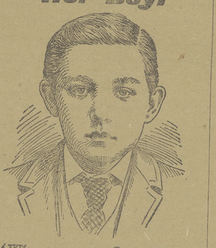

Manager Martin of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In these days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give releif within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by F. W. Hall Mdse Co.

Here is the rather forcible way one of our exchanges put it: "You had as well try to force a bantam hen to lay ostrich eggs as to try to do business without advertising."

I want to let the people who suffer from rheumatism and sciatica know thatChamberlain's Pain Balm relived me after a number of other medicines and a doctor had faifed. It is the best liniment I have ever known of.—J. A. Dodgen, Alpharetta, Ga. Thousands have been cured of rheumrtism by this remedy. One application relieves the pain. For sale by F. W. Hall Mdse Co.

Tell strangers what a prosperous city Dahlonega is every time you have an opportunity.

It Cured Her Boy.

"When my son George was 14, he was stricken with a terrible nervous affliction. Physicians nor medicines helped him. He lost his speech, use of limbs and could hardly swallow food. Before he had finished a bottle of Dr. Miles' Nervine he could talk and eat well, and 5 bottles cured him."

Mrs. Julia O'Connor, Willis, Texas.

DR. MILES'

Restorative Nervine

is sold by all druggists on guarantee, first bottle benefits or money back. Book on heart and nerves sent free.

Dr. Miles Medical Company, Elkhart, Ind.

Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Twice-a-Week Journal for

$1.50.

Here you get the news of the world and all your local news while it is fresh, paying very little more than one paper costs. Either paper is well worth $1.00, but by special arrangement we are enabled to put in both of them, giving three papers a week for this low price. You cannot equal this anywhere else, and this combination is the best premium for those who want a state paper and a home paper. Take these and you will keep up with the times.

Besides general news, the Twice-a-Week Journal has much agricultural matter and other articles of special interest to farmers. It has regular contributions by Sam Jones, Mrs. W. H. Felton, John Temple Graves, Hon. C. H. Jordan and other distinguished writers.

Call at this office and leave your subscriptions for both papers. You can get a sample copy of either paper here on application.

WOMANS TRIALS.

Many women suffer great pain at monthly periods and believe it natural. Others realize the danger but hesitate to secure treatment on account of humiliating local examinations. Nature intended the "monthly periods" to be painless and regular. Unusual pain and sickness indicate serious derangements which should have prompt attention, or they rapidly grow worse. Local examinations are not necessary since the discovery of

PLANTERS FEMALE REGULATOR

It cures all Female Diseases by properly strengthening and regulating the organs. This stops all the pain.

This remedy is a vegetable compound, and is the result of years of experience. It is carefully prepared in our own labratories by skilled chemists and is indorsed by leading physicians.

Sold by all druggists or sent post paid for $1. A box of "Monthly" Regulating Pills with each bottle.

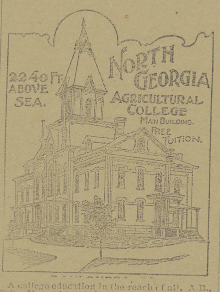

Mrs. A. L. FORD, Wesson, Miss., writes: "By using two bottles of Planters Female Regulator, I have been cured of Nervous Debility brought about by the birth of my last child."

FREE to any address, Book on the Home Treatment of Female Diseases. A sample box of "Monthly" Regulating Pills sent for 10 cents in stamps. Address, New Spencer Medicine Co., Chattanooga, Tennessee.

Diseases of the Blood and Nerves.

No one need suffer with neuralgia. This disease is quickly and permanently cured by Browns' Iron Bitters. PATENTS
CAVEATS, TRADE MARKS, COPYRIGHTS.

CAN I OBTAIN A PATENT? For a prompt answer and an honest opinion, write to MUNN & CO., who have had nearly fifty years' experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a catalogue of mechanical and scientific books sent free.

Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public without cost to the inventor. This splendid paper, issued weekly, elegantly illustrated, has by far the largest circulation of any scientific work in the world. $3 a year. Sample copies sent free.

Building Edition, monthly, $2.50 a year. Single copies, 25 cents. Every number contains beautiful plates, in colors, and photographs of new houses, with plans, enabling builders to show the latest designs and secure contracts. Address MUNN & CO., NEW YORK, 361 BROADWAY.

Why Editors are Unbelivers.

Rev. Dr. Talmage gives the following sensible reasons why skepticism exists among the newspaper men. "One of the greatest trials of the newspaper profession is that its members are compelled to see more of the shame of the world than any other profession. Through all the newspaper offices passes day after day all the wickedness of the world, all church bickerings, all vanities and all the dull speakers that wants to be eloquent, all the meanness that want to get its name noticed gratis in its columns, in order to save the tax of the advertising column; all the men who wants to be set right; all the crack-brained philosophers with stories as long as their hair and as gloomy as their faces. Through the editorial and reportorial rooms all the follies and shams of the world are seen day after day, and the temptation is to believe in neither God, man nor woman. It is no surprise to me that in this profession there are only skeptical. I only wonder that journalists believe anything.

An old crippled ex-confederate soldier named Luther Johnson of Augusta is walking the streets of that city and asks every one he meets if they want to buy his body. Twice he has applied to the state for an indigant pension but has been turned down both times for some unknown reasons. The old fellow went to Gov. Candler, who advised him to try again but he has given up in despair. Johnson was a member of company G. Second South Carolina volunteers, he served over two years, most of the time in the defense of Charleston, then during the retreat to North Carolina, where he was surrendered at Greensboro.

Where the Trouble Lies.

"I send my children to school year after year," said a citizen of the county the other day, "and still they don't seem to learn anything. They never know what is going on and some of them who could read pretty well actually forgot how to read before the next school came around, they just seem to lay all the book aside and go to forgetting everything just as fast as they can, the moment they stop school."

This man did not seem to be able to see that the trouble was all with himself. He took no newspaper and said he did not want any because "it detracted the attention of the children while they ought to be studying their books." It is foolish to expect a child to be interested all the time in dry school books. If a newspaper is put before him weekly most any child will soon acquire a taste for the entertainment and information it supplies and instead of forgetting how to read improves day by day.

Of what vast educational value is the modern newspaper? How can he who applies himself to books alone hope to be regarded as well informed? Take the bright boy or girl who has cultivated a taste for reading, and whose parents have been wise enough to supply them with papers. How quick and bright they are! How well they can talk to you about wars, countries, distinguished people, travels, science, politics, literature, art and industry! And their knowledge is not of the actual world of today and the people in it far better than the bookworm knows the dead world of the past. The information imparted by newspapers touches every subject under the sun and it is the very latest and best that can be had. How much better equipped for making his way in the world is the boy who knows the world fully as it is today, or the bookworm who knows the dead past, or the blockhead who knows neither?

Modern civilization has evolved no greater blessing to the human race than the newspaper, and nothing of many times its cost can bring half the satisfaction and substantial rewards to a family of children.—Calhoun Times.

HAVING A GREAT RUN ON CHAMBERLAIN'S COUGH REMEDY.

Manager Martin, of the Pierson drug store, informs us that he is having a great run on Chamberlain's Cough Remedy. He sells five bottles of that medicine to one of any other kind, and it gives great satisfaction. In those days of la grippe there is nothing like Chamberlain's Cough Remedy to stop the cough, heal up the sore throat and lungs and give relief within a very short time. The sales are growing, and all who try it are pleased with its prompt action.—South Chicago Daily Calumet. For sale by F. W. Hall Mdse Co.

One day last week while a cyclone passed through Cobb county, a family saw it coming and all reached the cyclone pit but one boy who hugged the body of a big tree. The tree was blown down and logs fell all around the boy and he was not hurt.

Unconscious Sufferers.

There are numerous cases on record where men suffering from some form of paralysis have been charged with drunkenness and have suffered in consequence most severely in mind, if not in body. It is far from being an uncommon circumstance for a man to receive in some street row, or, as the result of some practical joke, an injury to the head or spine, not serious enough perhaps at the moment to disable him, but certainly dangerous if not attended to at once. He may leave the vicinity where he received the hurt, may possibly walk for miles, go into a restaurant and take something to strengthen his nerves; then go out and gradually sink into a state of unconsciousness and be found in a doorway or lying in the road, bearing every indication of intoxication. The breath may smell of the stimulant he has taken, he is stupid and helpless, and at once the unpracticed eye stamps him as drunk and incapable. Locked up by himself he speedily becomes feverish and seriously ill and dies without assistance. This is no highly colored picture. Cases occur over and over again, and we regret to say that it appears to be the comming practice of the ordinary policeman to arrest and take to the station house any person who is acting strangely or stupidly in the street or who exhibits signs that are generally accepted as indicating the use of intoxicants. The proper place for these unfortunate persons is not the police station, but the hospital.—New York Ledger.

I want to let the people who suffer from rheumatism and sciatica know that Chamberlain's Pain Balm relived me after a number of other medicines and a doctor had failed. It is the best liniment I have ever known of.—J. A. Dodgen, Alpharetta, Ga. Thousands have been cured of rheumtism by this remedy. One application relieves the pain. For sale by F. W. Hall Mdse Co.

This Applies to You.

The policy of home patronage for home products is one from which there is nobody to dissent. It is universally agreed that the way to build up a town or city is for all classes to unite in the effort to increase its trade and to send no dollar away that there is a chance to keep at home. The patriotic citizen will submit to some inconvenience to carry out this idea, and everybody will esteem its praiseworthy if some little sacrifice is made in order to put money in a neighbor's purse rather in that of an outsider. The cash distributed near at hand is not so apt to take wings and flee to the utmost parts of the earth as that which is scattered far from one's door. Passed from hand to hand it may return to the starting place, or if it does not, it benefits the people nearest to the original splender.—Maretta Journal

The British army is now using "lyddite shells," a single one of which may destroy a whole company of cavalry horses and men, six hundred feet from where they strike.

The Baby Got It.

Somebody who spent some time at a certain resort last summer vouches for the following, which, if not strictly new, is at least a very creditable development of an old story. A mother, a baby and a nurse were seated together on the veranda one morning with a number of other guests. The mother was deeply engrossed in a book. The nurse was occupied by trying to keep the baby out of mischief. "No, no; the baby mustn't have it," was her staple remark, repeted over and over again and invariably followed by wails from the thwarted infant. Presently the mother, without lifting her eyes from the book, said: "Do let him have it, nurse, and at once. Anything to keep peace." "But, ma'am"—began the nurse. "Do as I say," interrupted the mother. "The baby is to have whatever he wants." For an instant there was silence, then shrieks so piercing that the preceding wails were as nothing beside them. In accordance with his mother's orders the baby had just grasped a bumblebee.—Philadelphia Times.

An old woman who was arrested for street begging in Marquette, Mich., the other day, had in her dirty, ragged clothing, $3,445 in bills and eleven $100 United States 4 per cent. bonds. She was sent to an insane asylum, the authorities arguing that a woman who would thus make a saving bank of her clothes must be mentally unsound. The report fails to state what became of the $4,445, but is safe to assume that the authorities looked after that matter. It is unsafe, for more reasons than one, for persons to carry around large sums of money in their clothing. There are all sorts of robbers abroad in the land.

TOWN and other Property

FOR SALE. Town lots in Dahlonega on Chestatee street Nos. 108, 122 and 123 on Tan Yard Branch. And the following lots of land in the 11th district of Lumpkin county: Nos. 260, 479, 480, 481, 527, 602, 812, 860, 862, 867. Call or address NUGGET office.

THE NUGGET.

DAHLONEGA, JAN. 26, 1900.

Entered at the Dahlonega, Ga. P. O as Second Class Matter.

Griffin is to have a $20,000 knitting mill.

Robert E. Park, of Macon, has announced his candidacy for state treasurer.

The bill for U. S. pensioners this year carries an appropration of $145,245,250.

The tax on cider dealers in Gainesville has been fixed at two hundred dollars for the present year.

Japan and Russia are making preperations to go to war with each other. What other nations will be next?

Last Saturday night George Silbee and Ed Meeks, two half brothers, were mobbed for murder in Fort Scott Kansas.

The Hall county grand jury failed to return a true bill against Dudley who killed O'Kelly and Smith in September with an axe.

The postoffice here was without money order blanks for a week, giving those owing accounts off a good excuse for not paying.

Frank Nix, formerly of Cleveland, Ga., was recently arrested for stealing articles from various wagoners in Gainesville.

Arrangements are being made to build a telephone line from Gainesville to Atlanta. Then Dahlonega can also "hello" to Atlanta.

Millions of people in India are on the verge of starvation. About 22,000,000 persons are now affected in British territory and about 27,000,000 in the native states.

J. Philips, Sr. of Nashville, Tenn., has been here this week on a visit to his son, J. Philips, Jr., who has been engaged in mining for some time for the Consolidated Co.

The trials of the accused lynchers of Si Smith commenced last Monday in Hall Superior Court. Bryson was put on trial first. The result has not been heard as we go to press. Later.—All cases against defendants have been nol prossed.

Rev. J. C. McInves, of Oaklanod, Cal., left the church the other day because he said he believed in dancing. Now that he is out he can shake his foot whenever he desires.

Just after Will McDonald recovered from the cut of an axe made by Geo. Corn, he was arrested and lodged in jail charged by the last grand jury with shooting at Mart Wehunt some time ago. He made bond.

J. Grady and lady of Delaware, Ohio, arrived in our city last Saturday. Mrs. Grady returned to her home after spending a day or so but her husband decided to remain this week in our growing and prosperous town.

Martin Bergen, of North Brookfield, Mass., last Friday killed his wife, two children and himself by the use of an axe and razor. After killing his wife and little boy with an axe, he used a razor on his little girl and himself. He was insane.

Flanagan tried to make his escape from DeKalb county jail by beating the sheriff Saturday night with a padlock, together with seven other prisoners. The sheriff shot him but Flanagan can't be hung nor killed in any way it seems.

The first day or two of the week both the mayor and mayor pro tem were absent and our town was without any one to try evil doers, but all who violated any of the ordinances in their absence that have been caught up with will now receive attention. Mayor Price was absent in Atlanta and Mayor pro tem Ingersoll was forced to go down to Gainesville as a witness in the Si Smith lynching case.

More mineral property is expected to change hands in this section within the next few days.

They commenced making the wooden tube at the long trestle on the Hand canal latter part of last week.

Mining has scarcely begun in Lumpkin county, remarked a gentleman the other day who is in a position to know.

Another stamp mill is being received by the Consolidated Co. This is a ten stamp mill and will be put up on the Benning property or near it.

A clean up at the Stewart mine the other day from a two weeks run—five hands and five stamps—amounted to a little over four hundred penny weights of gold.

After you get through looking at the works at the Hand if you want to see something nice just cross the Yahoola and see the large amount of ore they are taking out over there and the richness of the same. Some of the ore shows the gold in pieces larger than wheat grains, and what pleases the miners eye best there is much of it.

We are reliably informed that the celebrated Willis property in Dawson county, near the line of Lumpkin, changed hands last week. Being purchased by a company composed of gentlemen residing in the states of Connecticut, Ohio and probably others. J. V. Hewitt, of Bridgeport, Conn., is the president. Plans are being formulated and active operations will begin at an early day.

Dr. Cravens, general manager of the Chicago New South Gold Mining Co., who returned to Dahlonega last Monday after a few days absence, informed us upon his arrival that the mill on lot 810 was nearing completion and would be running by the first of February. In a short while the company will secure a charter and go to work on a large scale on the celebrated Briar Patch property.

Our section seems to be full of gold bearing veins, sometimes being found where they are least expected. As proof of this fact we call your attention to the several good veins struck down at the Hand mine while new roads were being cut, and a splendid vein was discovered while excavating the mill site. Another one was found while taking out rock for some stone work, since which many tons have been taken from this valuable vein to have it ready when the mill starts.

Judge Murray has arrived again from Tennessee. The Judge has large mining interests here and has heretofore done much towards the development of the gold mining resources of Lumpkin county and is making arrangements to do much more. Judge Murray owns an interest in a great deal of mining property as before stated but his favorite seems to be Crown Mountain. We have often heard the Judge say that it was one of the best mines on the entire belt but he never intended to let it be worked until money enough could be secured to work it properly to a great depth, for he had tested it sufficiently to satisfy him that it is rich all the way down. Arrangements are being perfected now for this work and no happier man can be found than Judge Murray when it begins.

The Atlanta correspondent of the Macon Telegraph says: The Ohio capitalists who have put $3,000,000 in the gold fields of Lumpkin county passed through Atlanta Saturday evening en route North from their visit to Dahlonega. While in the city they spent an hour in the office of State Geologist Yeates and expressed themselves as enthusiastic over mining prospects in Georgia. The assays of quartz lately taken from the Dahlonega mines show an increasing richness as development proceeds, and Mr. Yeates confirms the report that the ore is most promising. The Ohio developing company proposes to enlist more capital at once in sinking more shafts about Dahlonega. Its new 120-stamp mill will handle 500 tons of quartz daily, while its new chlorination plant will accommodate the output of a mill of that capacity. Another 120 stamp mill will be erected at once. It is said that the gold fields of Lumpkin are taking on quite a boom in the rush of prospectors and fortune-hunters who make up mining communities. Dahlonega is already a miniature Cripple Creek.

It is an interesting sight to go down to the Hand and see the vast amount of work they are doing in putting up their large stamp mill, chlorination plant and many other things necessary to run a mine on a large scale. We go down frequently and see something new every time we visit the place. It is like an exposition, you can't see it all in a trip, two trips nor half a dozen. We were down last Sunday again and were perfectly astounded to see the amount of work that had been done in a couple of weeks. Lumpkin county feels proud of this great plant which is being put up by our northern friends who have confidence enough in our mines to come down here and spend their time and money so as to develop our mineral resources. The people here couldn't for the like of the necessary means it requires to build one of these big plants. It will pay those who have not been here to come many miles and see what can be done by skilled workmen. It is a wonderful sight to look at the hundreds of pounds of rubber that have been made into various size belts for this mill, and to see the millions of feet of lumber that have been brought from the forests of both Hall, Dawson, White and Lumpkin counties and put into this building. Then last but not least the many tons of iron that have been made into all kinds of shapes and sizes now being placed in proper positions, is wonderful to behold.

NOTICE.

The republicans of Lumpkin county are requested to meet at the court house in Dahlonega on Saturday, 10th at 11 o'clock a. m. for the purpose of electing two delegates and alternates to the state convention which meets in Atlanta on March 7th. Also two delegates and alternates to the Congressional canvention which meets in Gainesville Feb. 17th and to transact such other business as may come before the meeting.

H. D. INGERSOLL,
Chairman.

W. G. SPENCER, Sec'y.

Last Monday we noticed W. T. Brison and David Anderson sitting in front of the courthouse, two of the first veterans who left Dahlonega March 18, 1861, and resided at that time near Auraria. Their appearance was quite different then to what it is now. Then they were young men just in the prime of life, but old age has crept upon them until they don't resemble the same persons.

STATE OF OHIO, CITY OF TOLEDO, } ss
LUCUS COUNTY, }

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co. doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY.

Sworn to before me and subscribed in my present. this 6th day of December, A. D 1886.

(SEAL) A. W. GLEASON,
Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials, free.

Hall's Family Pills are the best.

Last Monday night a crowd of unknown persons went to the home of Mrs. Tessie Owens, who resides down on the Auraria road, some three miles from Dahlonega, and placed a dynamite under the house which quickly aroused the occupants, for it bursted a sill and gave this heretofore pleasant resort a considerable shake up when it exploded. Then the doors were bursted down and the proprietress of the house struck with a rock. Mrs. Owens has been keeping Maud Blackburn, one of the worst characters in the county, at her house for some time, causing it to be frequented by men and boys, of almost every age—even gray-headed men, to drink, court and play the devil generally—Sunday being the biggest day, causing people in that community to get tired of such conduct, deciding at last if they couldn't stop such misbehavior by law they would make an effort with the use of dynamite. Mrs. Owens says that some of the parties were women. There is a place in the heart of Dahlonega almost as bad as Mrs. Owens except no liquor is sold at the place referred to in town and will continue so unless the city authorities pin down a little. This way of the marshal pulling a young man out of bed and letting the woman go whose young friends send word a week afterwards that they would pay whatever the woman was sentenced and a fine of $3 and cost imposed upon the defendant without her presence being required in court. In another instance the night watch pulled a man, who was made to pay a fine but he said that he didn't make any case against the woman because she already had one against her for another night. This way of doing will never build up society. If you pull the man, take the woman also.

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself?

If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

Scott's Emulsion

prevents consumption and hosts of other diseases which attack the weak and those with poor blood.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.

TREASURER'S REPORT.

B. F. ANDERSON MAKES REPORT TO F. C. TATE, ORDINARY OF LUMPKIN CO., JAN. 20, 1900.

Georgia, Lumpkin County.

To Hon. F. C. Tate, Ordinary:

I herewith submit my report as treasurer of said county in accordance with the law Section 460, Vol. 1st, of new code:

1899, October 21, received from J. E. McGee, acting treasurer of Wm. Marr, dec.	$ 270.35
Oct. 21, received from W. H. C. Tate, fines in Robt. Satterfield and Jno. Elrod cases	20.30
Nov. 4, received from J. F. Sargent, Tax Collector,	174.67
Nov. 10, received from W. H. C. Tate, ordinary, fines in Jos. Bonner, Emily Satterfield, Rena Adams and James Edmonson	60.00
Dec. 4, received from J. F. Sargent, Tax Collector	513.79
Dec. 18, riceived from J. F. Sargent, Tax Collector	2,035 00
Dec. 20, received from J. F. Sargent, Tax Collector	1,242.52
Dec. 20, received from J. F. Sargent, Tax Collector	100.00
Dec 22, received from J. F. Sargent, Tax Collector	386.15
Jan. 1, received from W. H. C. Tate, ordinary, Past Office rent	12.00
CREDITS:	
Jan. 20, by paid out on proper vouchers	$2,535.23
Jan. 20, by bal in treasury	$2,279.55
	$4,814.78 $4,814.78
Jan. 20, bal. in treas.	$2,279.55

B. F. ANDERSON, Treas.

Sworn to and subscribed before me, this 20th day of Jan. 1900.

W. H. C. TATE, Ordinary.

THE NUGGET.

DAHLONEGA, GA., JAN. 26 1900.

A big new girl arrived at Will Spencer's this week.

Judge Newman gave young Stoyer 4 months imprisonment for selling liquor in Dahlonega.

Mark Slater was bound over by Com. Baker, and carried to Atlanta this week for selling liquor.

Marshal Anderson has contracted with J. M. Kirkham to build him a new house in Dahlonega.

If you are not already advertising in this paper, it will pay you to do so. Look how prosperous those merchants are doing that are at it.

There were no exercises at the college last Tuesday on account of its being Lee's birthday and the school boys tramped around in the mud and water in memory of the old hero.

Prof. Boyd has decided to sell his residence on the hill to Prof. Gaillard and build him another across the ridge on the property which he proposes to lay off into town lots.

T. S. Littlefield of Gainesville, has purchased the C. E. Kennimer farm in Lumpkin county and will remove to it right away. He would have located in Dahlonega but couldn't rent a dwelling,

We endeavor to give as correct as possible briefly all the mining news of this section, and would be glad to give an account of any new developments. Facts are what we want.

On Lee's birthday some parties went down to the three mile bar, so it is said, and got drunk. This is one way of celebrating the old soldiers first appearance into this country.

W. E. Jacobs, one of the stockholders of the Dahlonega Consolidated Co., who visited our city last week, resides in Columbus, O., and is the manufacturer of wheelbarrows by the thousands, many of them being used in this section.

There are scarcely two watches or clocks in Dahlonega having the same time. We have no sun dial to go by, which causes every fellow to have his own time. It looks to us that the managers of the telephone line from here to Gainesville might arrange to secure the correct time every day from that city or oftener if it was desired.

All our northern friends who were here last week left for their homes Friday except Messrs. G. H. Breymann, vice-president of the Consolidated, and Messrs. F. R. Adams, F. W. Bainbridge and F. G. Thomson, also members of the company, who remained until Monday morning, making a more extended investigation of the vast amount of work that is being done here by the company.

Tax collector Sargent and W. H. McAfee are now engaged in making a list of all unreturned wild lands in Lumpkin county which will be levied and advertised within the next few weeks and sold in ninety days thereafter. All persons owning wild lands in this county should compare their lists with the tax collectors to be found at Mr. McAfees before they are published for nonpayment of taxes and see that there are no mistakes. This will save both time and trouble.

Two northern gentlemen, R. C. Thomson and Dr. J. G. Groye, both of Ohio, have already located and others are expected to make their homes with us—Mr. Breymann being one of them, who says that he anticipates putting up a house costing some four or five thousand dollars if the mines here he is interested in turns out like he expects them to, and he has no fears of them not doing so. Mr. Thomson has already built and now occupies the prettiest and most convenient dwelling in Dahlonega. We extend all such wide awake and energetic gentlemen a hearty welcome.

Watch the NUGGET and keep posted about Dahlonega's prosperity.

T. S. Littlefield, of Gainesville, was up this week on a visit to relatives.

Miss Florence McAfee is now in Atlanta where she has accepted a position in a store.

Do you want to sell or buy any land? If so come to this office and get a blank deed for five cents.

Send to the Dahlonega Portrait Co. for a series of mining views of the Dahlonega Consolidated Gold Mining Co.

Soon after dark last Sunday night some one exploded a dynamite over in the college drill field. This seems to us to be very poor sport on Sunday night we have done a heap of mischief but always tried to respect the Lord's day.

Miss Sallie Dunn, after spending several months in Dahlonega with her sister, Mrs. G. H. McGuire, returned to her home at Ellijay last Tuesday accompied by Mrs. McGuire who went to spend a day or two in the town where she used to reside.

County School Commissioner Seabolt has been engaged for several days in making a final settlement with teachers who taught public schools in Lumpkin county last year. The amount he received for this purpose amounted to something over $950.

J. A. Howard went down to Gainesville first of the week to testify in the case of the state vs, the parties who are charged with murdering Si Smith in Hall county jail some months ago. A conversation between Taylor Hamilton and Mr. Howard on the night of the killing is why he was wanted as a witness in the case.

Last Sunday night Clyde Meaders of Dahlonega, dreamed that his mother, who is down at Appling, was dead. After he awoke he could not go to sleep any more and it continued to rest so heavy on his mind that he sent a telegram of enquiry, and was greatly relieved when he learned that his mother was enjoying her usual health.

Early one morning last week a light out at the cemetery caused all early risers to enquire what it meant, until it was known that Mrs. M. G. Boyd had purchased a lot and had the remains of her husband removed to it. The interment had not been long enough for the coffin to be decayed the least bit.

At the next Superior Court the terms of two of the members of the board of education—Col. W. P. Price and R. L. London—expire, whose places will be recommended to be filled by the grand jury. Both these gentlemen have made good and efficient members and the body could do no better than to reappoint them.

At a regular meeting of the Decora Palaestra Society last Monday the following officers were elected: C. L. Harris, President. H. L. Palmour, Vice President. W. P. Edwards, Recording Secretary. A. W. Cain, Treasurer. W. F. Shamblee, Corresponding Secretary. J. W. West, Critic. A. F. Hilliard, Chaplain. W. M. Smith, Sergant-at-arms.

John Satterfield died last Sunday nigh shortly after 12 o'clock some three miles from Dahlonega at his fathers house after an illness of about two weeks of typhoid feyer. He was the son of W. H. Satterfield. The deceased was an unmarried man who lived a lonely life in a little hut near the bank of the Chestatee river not for from his fathers residence. He hunted and mined for a living. A few days ago it was learned that he was sick and his father soon had him carried home where he received every treatment possible for his relief that parents, brothers and sisters could give with the aid of a physician, but the disease had gained too big a hold and the cold hand of death touched him and his spirit took its flight to that world unknown.

A pretty little girl made its appearance at merchant Will Heads one day last week.

Prof. Stewart has been absent in Augusta a few days this week attending some educational convention.

Little Warren, the two-year-old son of Presiding Elder E. R. Cook died last Wednesday a short while before sundown of pneumonia after an illness of only about a week. How sad.

James Marlow, who has been doing business for the Hynds Manufacturing Co., has moved his family to Dahlonega and is now in the employ of the Hall Mdse Co, selling goods. Welcome.

It is not only our circulation increasing but job work is considerably better than it has been heretofore. In the first 24 days of January we turned out 24 different jobs, being an average of one for each day.

One qt. coffee pot 6c. 2 qt. covered buckets 8. Big graters 5. Tea spoons 3c per set. Nice tumblers 3c each. Steel enamel 2 qt. covered buckets 14c. 1 qt. do 22. Towels and handkerchiefs a new lot. B. R. MEADERS & SONS.

Nimblewill is one of the most prosperous malitia districts in the county. Improvements are going on in that section most all the time in the way of building. The settlement in the neighborhood of Randa has four stores. Wm. Mincy is now behind the counter at the Randa store,

Last Monday the Phi Mu Society conducted a mock trial in their hall. The judge, sheriff, lawyers and prisoner were selected from their own number. The society acted as jury. The prisoner was tried for a pretended murder. He was found guilty and sentenced to the chain gang for life.

The members of Yahoola church re-elected Revs. Gilreath and Samuel Waters to keep its flock together for the next twelve months, but they refused to serve on account of the small amount paid by the church for such services. They will probably elect Rev. J. N. Shed, of Clarksboro, Ga., who is going to move back to this county and make it his future home.

Marshal Grizzle has been playing havoc with the blockaders since our last issue. He went out into the eastern part of the county and got two stills, one belonging to Peter Peck and the other to Marion Turner. No body at home. Also got one at Yonah mountain Tuesday. Then he arrested Andrew Gooch, in Union county for blockading. So all three counties—Union, Waite and Lumpkin—are represented this week.

Elsewhere will be found the report of county treasurer Anderson. We don't think it is as complete as is intended by section 460, Vol. 1 of the last code, for it says that treasurers must "make a full and complete report annually to the ordinary for publication." This report only gives the different amounts received but that which is paid out is all lumped together. Therefore we don't think that it is a complete report according to law. Just as well have said that the total amount received was so much as the total amount paid out. If you was to go to the store and ask for a statement of your account and it was made ont this way you wouldn't received it, would you? As it is only five men in Lumpkin county know to whom the money has been paid, and they are the ordinary, treasurer and three members of the finance committee. Not even the grand jury know it for the body at no term of the court has had time to have the report read out to them. The object of this law was to enable the tax payers to sit down by their firesides and see where and to whom the money is paid. They know where it comes from, for it is pulled out of their pockets. Study for a moment and see if we are not right in reference to this matter. The treasurer is not accused of any thing wrong, for he pays out money by the direction of the ordinary.

We have been troubled with nearly everything that comes along and now we have the epizootic.

Now is the time for you to purchase a lot if you want to become a citizen of Dahlonega before the big rush begins.

Dahlonega has been infested with a plauge for sume time—book agents and picture enlargers. They are equal to the potato bug pest in the summer time.

I. C. Edwards has been awarded the contract of building Prof. Ansted's residence over on Boyd street. The plan is an up to date one and Mr. Edwards is able to build it nice.

R. N. Smith, of Gainesville, who has been here for some time engaged in mechanical work, has made up his mind to build a residence and become a permanent citizen of Dahlonega. He will build on Boyd street, the new one which is to be opened out soon. All good citizens are extended a hearty welcome.

It is very encouraging to hear the predictions made about Dahlonega by our northern friends who have large interests here. We heard one say last Saturday evening that he expected to see Dahlonega a prosperous city of ten thousand population in ten years. And this gentleman was not talking just to hear himself for he is not made on that kind of a last.

Your attention is directed to the change in the ad. of G. D. Bruce, the photographer, whose work compares favorably with any one following the business in the United States. For several months he has been engaged in taking mining views for the Dahlonega Consolidated and other companies which have found ready sale by the hundreds in all parts of the north. This alone is sufficient proof that his work is satisfactory and his photographs nice.

A great many little boys, and some big ones too, congregate at the past office nearly every afternoon after the mail arrives and scuffle and yell until the mail is opened, making it a perfect nuisance, crowding up so those having boxes are unable to get in sight of them much less reaching them. They should remember that the postmaster has the right to call on the U. S. Deputy Marshal when he deems it necessary to have good order if he cannot get it otherwise. Parents, some of you have no idea how your boys are misbehaving at the office. Such conduct should be stopped so that a lady could go there at any time without the least embarressment.

Jack Lee, who resides in Yahoola district, is still an unmarried man, though it is not his fault as a recent effort on his part has proven. For some time he has had pleasant dreams about a widow residing over in Union county some thirty miles distant. So confident that his dream would come to pass he secured his license one day last week while it was cold and raining and started out, in company with the lady's father and a couple of relatives of his, with the intention of bringing Mrs. Holloway back across the county line and wedding her on top of the great Blue Ridge, having already spoken to Mr. Phillips, a divine residing on this side, to meet them on the way and make their hearts beat and thob as one. When the party reached their destination Mrs. Holloway refused to have Andrew Jackson, and the party retraced their steps through mud and water, arriving at home after a three days absence. As is the custom in the country the boys in the neighborhood went to serenade them but upon their arrival at Jacks residence instead of finding a happy wedded couple, the man of the house was sitting alone by the fire singing a song to the tune of "My Sugar Babe," with a sad and aching heart worded as follows:

"He gave me the cow,
And sold me the calf,
My sweet dona beat me out of
A dollar and a half."

Judge Tate had Jay bridge refloored this week.

All the pension blanks necessary have been received by Judge Tate.

The mayor has several cases to dispose of to night.

Geo. Duncan has the contract of lowering the Masonic building and repairing the same, which is going on now.

A few nice capes 60c to $2.70. A nice line of calico 5 1-2 to 6c. A few ladies all wool waists $1.03. Novels at 10c that often cost 25 and 50. Gents cuff buttons leavor back 9c. 10 collar buttons 5c.
B. R. MEADERS & SONS.

Sheriff Roper, of Dawson county, came up Wednesday to have Charlie Dotson, who is charged with an assault with intent to murder in that county, strengthen his bond on account of one of his surities moving off.

Since Dahlonega has been changed to a city the blockaders have been a little more shy about bringing their liquor into town and selling it in the public square and in the court house, but they come to the dead line and the indulgers have to go after it.

J. C. Croy, of Dawsonville, was here several days this week working for jeweler McGuire while he visited Ellijay. Mr. Croy speaks of moving to Dahlonega. Any way he has followed the example of all good people by having his name registered on the NUGGETS subscription book,

Sheriff Davis went into Auraria district and arrested a young man who had just been there a few days claiming to be Ben Brown from Morgan county, who is supposed to be Emory Long who is wanted in Walton for murder, for whom there is a state reward of $200. The arrest was made Wednesday night.

Miss Romania Whelchel, one of the teachers in the Ellijay College, died at that place Monday night, whose remains were interred at Yellow Creek cemetery Wednesday. The deceased was a former teacher in the N. G. A. College, and no exercises were had at this institution Wednesday in memory of this noble lady.

The man and his wife who said that they footed it all the way from Virginia to Dahlonega left out last Friday after spending a few days here, due Lon Bruce $1.00 which he had advanced the man for wood chopping. Then soon after they left a sign painter came along and arranged to do some painting for Mr. Bruce, who arranged for his nights lodging. Next morning he left out without doing any painting. So Mr. Bruce had to settle this bill and no value received. Mr. Bruce should be added to the foreign mission committee. If he was on this committee it would not be necessary to send the money off. The parties would come after it and they could be preached to right here at home.

A report is being prepared for publication by the council which will give the debits and credits of the town for the year just closed, then each citizen can sit down at his fireside and see where his money is gone. Every one is entitled to know and this is the only proper way to get at it. Never stand back because it costs you something to have a report published. Newspapers are beneficial to the people and help build up a town. If you keep back what they ought to have how do you expect them to continue the work? Even the preacher who is working for the Great Creator, would have to cease work if he got nothing for his services. Maybe this is the reason the California minister quit the business and went to dancing the other day. He had to make a living in some manner. Now don't force us to go to go to dancing for we are unable to cut the pigeon's wing in an up to date manner. It would certainly be embarrassing for a sockless country editor to undertake a thing of this kind, wearing only one suspender.

VALUABLE GOLD ORE.

Report of a Committee Selected to Take Samples of Ore From the Hand For a Test.

Many Stockholders of the Dahlonega Consolidated Gold M. Co. were surprised at the reported increase of value of the ores from the mines that are to supply the new mill, as the ore veins were worked into the solid formation, and last Friday, the 19th, they appointed a committee to take samples from the vast bodies of ores on the dumps and ready for milling at the Yahoola, Benning, McAfee and the Breymann lode. The committee consisted of Messrs. E. Jacobs, of the firm of Jacobs Bro's and also of the firm of Kilbourne Jacobs & Co., of Columbus, O., Dr. T. H. Hicks, a mineralogist from Fort Wayne, Ind., J. M. Bloomer, editor of the News, Toledo, O., and F. W. Bainbridge, a prominent business man of Toledo, O.

The committee was instructed to take numerous samples of ore from the dumps at the mines named and to take the samples from all parts of the dumps, embracing all sorts and grades of ore in order to reach as near as possible to a mill test. The committee secured the samples and made the following signed report which was universally accepted:

To THE DAHLONEGA C. G. M. Co.

GENTLEMEN:—The committee selected January 19th, 1900, by the stockholders of the Dahlonega Consolidated Gold Mining Company take samples for assay from the Benning, Yahoola, McAfee and Breymann lode, in order to ascertain the value of the ores now ready for milling by the company, make the following report:

The committee took two lots of ore, weighing 67 pounds, from the Benning vein. One lot was taken from the dump which consisted of a vast pile of ore ready for the mill; the other from loose ore along the vein, where the deepest mining had been done. These samples consisted of hundreds of pieces of ore from all parts of the dump and the mine, taken irrespective of quality, for the purpose of securing a correct average of the ores. The samples taken from the dump and loose ore of the mine were assayed separately, with the following result:

Ore from the dump and sulphurets combined—value per ton $4.80.
Concentrates (sulphurets) $32.00
Loose ore in vein $8.80.
Concentrates (sulphurets) $100.80.
Dump and loose vein ore combined assayed $6.00.
This ore concentrated in the proportion of 42 to 1.

The second sample consists of 10 pounds from the McAfee, taken as above from all parts of the body of many thousands of tons of ore on the dump ready for milling. It resulted as follows:

Ore and sulphurets combined assayed $7.20 per ton.
Concentrates (sulphurets) $80.00 per ton.
This ore concentrated 37 to 1.

The third sample also consisted of 10 pounds, and was taken, as the other samples, from all parts of the vast body of ore mined in the Yahoola mine. This ore assayed per ton as follows:

Ore and sulphurets combined per ton $9.60.
Concentrates (sulphurets) $77.60 per ton.
This ore concentrated 22 to 1.

The fourth sample, consisting of 50 pounds from a large body of ore taken out of the Breymann lode, assayed as follows:

Ore and sulphurets per ton $7.20.
Concentrates (sulphurets) per ton $59.20.
This ore concentrates 51 to 1.

Your committee took the samples to the office of Edward Peacock the company's assayer, and saw the ore crushed and thoroughly mixed and assayed. The samples were taken by breaking a small piece from all sorts of ore in all parts of the dump. We believe that this test is a conservative exhibit of the values of the ores now on the dump and ready for milling. The fact that the large sample of 67 pounds taken from the Benning vein 20 feet from the surface and 10 feet into the solid formation shows the high value of $8.80. and the concentrates $100.80 is gratifying, and entitles the company to congratulations.

Respectfully submitted,
F. W. BAINBRIDGE, J. M. BLOOMER,
Wm. E. JACOBS, T. H. HICKS, M. D.
Committee.

It will be seen that the above test averages $7.50 per ton for the thousands of tons on the dumps ready for milling. Yet the test does not show the values of the ores reached by deep mining as this ore came largely from the surface and the free gold is largely wasted by the weather and the sulphrets lost by vidization. The difference from the dump ore and the ore taken from the solid formation in the Benning, which is largely sulphureted shows this conclusively.

How to Succeed.

Boys, the world is wide. If you wish to be somebody, "pitch in." The brave always have friends. Where others have gone, you can go. If the the old tracks don't suit, make new ones. Success is not obtained without effort. If you fail once, try it again. If it's dark, strike a light. Are you in the shade? Move around; for if there's shade on one side, there is sunshine on the other. Take time, boys; don't hurry too fast. Go slow, especially till you know the road or become acquainted with your team.—Ex.

Noting the recent invention of a farm plow that will do the work of eight men and twelve horses, by Dr. Gatling, the inventor of the Gatling gun, an exchange remarks that he is turning his attention to the art of peace. We are not so sure of this. But for the idleness in this country there would have been no Spanish-American war. But for idleness the civilization of the dawning twentieth century would permit no arbitration at arms. In the late war men took up soldiering as an occupation, and seldom from patriotic motives. The more men that Dr. Gatling can throw out of a job, enhances the prospects of his Gatling gun.—Madison Advertiser.

Let not your whole life be spent in a dream. Let it be only part of your life. The tired ox, from whose sore neck is lifted the cruel yoke, at eventide may dream of sparkling springs and green meadows and freedom, as he crushed his nubbin of corn, but to-morrow he is reharnessed again, and the work goes on. The price of existence is toil, and many a worn man in Marietta feels the cruel yoke as it presses upon his neck and he bears the burden of labor. "By the sweat of his face man shall earn his bread." At last there comes a time, when "life's fitful fever is ore," when he can lie down to pleasant dreams; "where the wicked cease from troubling and the weary are at rest."—Journal.

It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease M. V. Fisher of Liberty, W. Va., only repeats what has been said around the globe when he writes: "I have used Chumberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is or sale by F. W. Hall Mdse Co.

The governor decided to pay a reward of $250 to N. N. Fain and J. E. J. Eubanks of Habersham county for the capture of John S. Smith, alias Si Smith who was charged with the murder of W. B. Bell in April of last year. Smith, it will be remembered, was afterwards lynched while confined in Hall county jail. The governor offered a reward of $500 on April 24th for the capture, with proof to convict, of Si Smith. He was captured and delivered to the sheriff of Habersham county, but the feeling was so strong he was afterwards removed to Gainesville. It was here that a mob late one night called on the sheriff and under the pretense of delivering a prisonor entered the jail and shot down Smith in his cell. They then made their escape. There were four claimants for the reward, N. N. Fain J. E. J. Eubanks, Henery Towery, and Tom Brison. Towery and Tom Brison were afterwards indicted by the grrnd jury of Hall county for being implicated in the murder of Si Smith, and for that reason their part of the reward was held up.

A law has been passed in Norway which makes girls ineligible for matrimony who cannot show certificates of skill in cooking, knitting and spinning. Whether a similar law has been passed making men ineligible for matrimony who cannot show certficates of skill in the art of making a decent living is not stated, though the second law would appear to be as desirable as the first.

A Christian Scientist family in a Pennsylvania town refused to call in a physician when diphtheria made its appearance in the household. As a result, two of the children died before the authorities took hold of the case.

Mining Company Organized.

The Pioneer Exploitation and Development Company is organized with W. W. Murray, President, J. H. Moore, General Manager and J. F. Moore Secretary and Treasury. This company is now ready for the transaction of business. Office for the present in the rear of J. F. Moore's store.

Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Twice-a-Week Journal for

$1.50.

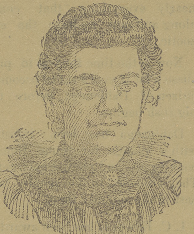

Here you get the news of the world and all your local news while it is fresh, paying very little more than one paper costs. Either paper is well worth $1.00, but by special arrangement we are enabled to put in both of them, giving three papers a week for this low price. You cannot equal this anywhere else, and this combination is the best premium for those who want a state paper and a home paper. Take these and you will keep up with the times.

Besides general news, the Twice-a-Week Journal has much agricultural matter and other articles of special interest to farmers. It has regular contributions by Sam Jones, Mrs. W. H. Felton, John Temple Graves, Hon. C. H. Jordan and other distinguished writers.

Call at this office and leave your subscriptions for both papers. You can get a sample copy of either paper here on application.

OPIUM and Whiskey Habits cured at home without pain Book of particulars sent FREE DR. B. M. WOOLLEY CO. Atlanta, Ga. Office, 104 North Pryor St

WOMANS TRIALS.

Many women suffer great pain at monthly periods and believe it natural. Others realize the danger but hesitate to secure treatment on account of humiliating local examinations. Nature intended the "monthly periods" to be painless and regular. Unusual pain and sickness indicate serious derangements which should have prompt attention, or they rapidly grow worse. Local examinations are not necessary since the discovery of

PLANTERS FEMALE REGULATOR

It cures all Female Diseases by properly strengthening and regulating the organs. This stops all the pain.
